JEROME IS OUTWITTED, THAW SCORES VICTORY

Plans to Carry Case to Supreme Court of United States.

Hearing on Federal Writ Indefinitely Suspended at Littleton.

PRISONER OPENLY CHEERED

Court Reprimands Leading Counsel for State—Further Hearing Next Tuesday—Governor's Requisition.

Littleton, N. H., Sept. 16.—Counsel for Harry Kendall Thaw tonight laid the foundation for plans to carry his case to the Supreme Court of the United States—if this becomes necessary.

When the Governor of New Hampshire passes on the matter of the extradition of Thaw to New York, at the hearing to be held at Concord next Tuesday the findings, if adverse to Thaw, will be reviewed by the United States District Court, and should a decision against him then be rendered, successive appeals would be taken until the case reaches the highest court in the land.

This was the announcement made tonight by the Thaw lawyers, after the most notable court victory for the fugitive since his escape from Matteawan. It was made after the hearing on a Federal writ of habeas corpus obtained in Thaw's behalf had been indefinitely suspended until such time as counsel saw fit to begin arguments after the extradition matter had been decided by the Governor.

Thaw's jubilant counsel, headed by Moses Grossman and L. J. Vorhaus, departed for New York, leaving their client in the joint custody of the United States marshal and Sheriff Drew, of Coos county, not to return until the hearing before the Governor is called. The head of the New York State forces, William Travers Jerome, and Deputy Attorney General Kennedy and Sheric Hornbeck, of Dutchess county, also left tonight. They will come back for the hearing Tuesday.

Thaw, according to the understanding reached, will be taken to Concord in the morning. He was quartered in Thayers Hotel tonight, feeling fine and predicting that the gates of Matteawan would never close behind him again.

Mr. Jerome had little or nothing to say. "Thaw is tied up now with a Federal writ," he said, "and there is no getting around it. But the questions to be decided by the Governor are simple and we hope for victory."

Concluding his rescript today Judge Aldrich engaged Mr. Jerome in informal colloquy as regards Thaw's status as an insane man or a criminal. It was perhaps the most interesting part of the brief court procedure.

Littleton, N. H., Sept. 16.—"It is probably open to counsel for the petitioner," said the court, "to raise questions whether this New York process under which Thaw was held as an insane person should become a part of the proceedings at issue, whether the process under which he is held here is due process. The novelty of the situation, as everybody must see, results from the fact that he was held in an institution in New York as an insane person and the offense or crime upon which it is sought to have him extradited consists, according to their own account of it, his escape from that institution. Now whether the State of New York, holding a person as an insane person, is in a position to set up his escape as a crime within the meaning of the Federal Constitution and of the State authorities, is a question. If you have found anything in the books, Mr. Jerome, on that question, you have done better than I have."

"It seems to me that involves a novel proposition."

Jerome: "I understand it to be the rule, as laid down in the Czolgosz and the Guiteau cases, that if a person knew the nature and quality of the act, and that it was wrong, it did not matter whether he was sane or not."

The Court continued: "I wish to be understood that I am making no intimation as to what I think about the question, when I say it is novel. But if you stand on the position that extradition is justified, provided Thaw was of sufficient mind to commit a criminal act at the time he escaped from Matteawan, you put a qualification upon your proposition at once. When a sovereign State asks another sovereign State forcibly to seize a man and carry him across the line to another jurisdiction, is any question closed?"

Jerome: "We think that all that will be open for your honor's investigation will be 'Is he charged with crime? Was he in the State at the time of the commission of the crime and now found here, and is he the person mentioned?'"

The Court: "I think that you are perfectly correct in that proposition as a general one, but when the papers show that one is charged with a criminal act, and that act is involved in and solely grounded in the escape from a warrant which holds him as an insane person, have you cases which held that he should be extradited as a criminal?"

Jerome: "We have cases that held as you have in the Federal jurisdiction, that an insane man is held to criminal responsibility."

The Court: "There is really no question for further discussion. But I will say that counsel on both sides better examine cases which involve indictments and trials of issues of mental capacity, and see how far they apply to similar questions involved in extradition proceedings, where one State is asking another to exercise its authority for removal to another jurisdiction."

WILLIAM TRAVERS JEROME.

For the first time since his return to the United States after his sudden deportation from Canada, Thaw was openly cheered today. Arriving early from Colebrooke, near where he was arrested last week, enthusiastic and sympathetic crowds greeted him at the station and when he descended to Main street after his court victory and was taken to his hotel for dinner, hurrahs greeted him as he passed.

During the early part of the court proceedings, Thaw avoided the eyes of Jerome, but when he saw that his old enemy was not pressing the attack that he had outlined, that the writ had not been obtained in good faith, but as a means of delay, he raised his eyes to the face of Jerome, and when the latter failed to put in evidence an affidavit of a newspaper writer to support the contention that the Thaw lawyers were merely sparring for time, the fugitive laughed outright. The only lawyer remaining with him tonight was ex-Governor William A. Stone, of Pennsylvania, acting as personal representative of the Thaw family.

Thaw's First Victory.

Littleton, N. H., Sept. 16.—Harry Kendall Thaw, fugitive from Matteawan, today won a victory in the United States District Court here when Judge Aldrich indefinitely suspended a hearing on a writ of habeas corpus obtained by the Thaw lawyers.

This means that Thaw will have a Federal writ to check his immediate return to New York State in the event Governor Felker orders his extradition after the hearing at Concord.

In an open discussion with William Travers Jerome, special counsel for New York State, after announcing the suspension of the hearing, Judge Aldrich said that search of the statutes had failed to reveal to him any law under which a man in Thaw's position, a lunatic charged with a crime, could be extradited.

Jerome tried to block the postponement on the ground that the writ had been obtained as a matter of expediency.

"What do you propose to do then?" insisted the judge.

Jerome hesitated.

"The immediate question," continued the court "is whether the proceedings shall go on or be suspended. It is the judgment of the court that a suspension would not menace the interests of either side.

"In view of the fact that the Governor hesitates to proceed with the extradition hearing until the status of this matter is assured, I suspend it. It is not adjourned, but suspended, and I suggest that either side notify me within six days when they are prepared to go on with it."

Thaw sat with his eyes riveted on the court. His lawyers were grinning. He was remanded back to the joint custody of Sheriff Drew, of Coos county, who arrested him after his recent deportation from Canada, and United States Marshal Nute.

Counsel for both sides, after talking with the Governor by telephone, agreed that the extradition hearing would not be held until Tuesday, September 23rd. The lawyers then went in conference to decide whether to hold the fugitive meanwhile. Marshal Nute later announced he would keep Thaw here over night.

Thereafter his plans for the prisoner were undecided.

Jerome Reprimanded.

Mr. Jerome, in addressing the court today was sharply reprimanded when he referred to "loquacious counsel of the other side."

"You need not use that term 'loquacious', Mr. Jerome," said the court severely.

"I withdraw the remark," said Jerome.

"I will say now," continued the court, "that unless you have a pretty strong case, I advise you to save the trouble of raising the issue of bad faith."

Mr. Jerome sat down.

Geo. Morris, of Thaw's New Hampshire lawyers, addressed the court. He said in brief that the writ in Thaw's behalf had been obtained because, under the New Hampshire statutes, there was no recourse to the courts, if the Governor honored the extradition warrant and the New York authorities cared to remove the fugitive instantly.

"Do you wish to press this question of bad faith?" inquired the court.

Mr. Jerome paused a moment, then said he would let the matter drop.

Concord, N. H., Sept. 16.—Mrs. Mary C. Thaw, mother of Harry K.

HUERTA MESSAGE IS PACIFICATORY

Provisional President of Mexico Promises Unrestricted Election Next Month

CONGRESS MET YESTERDAY

United States Blamed for Condition of Affairs—Statement of Finances—Prolonged Cheering at Conclusion of Reading.

Mexico City, Sept. 16.—Provisional President Victoriano Huerta tonight delivered his semi-annual message at the opening of the second session of the 27th Mexican Congress. In it he promised to spare no efforts to bring about the unrestricted election of President and Vice President of the Mexican republic next month, declaring that it would constitute the greatest triumph of his career to turn over the office to his successor with the country at peace, as he hoped to do.

General Huerta said the strained diplomatic relations between Mexico and the United States had caused the Mexican nation to suffer unmerited affliction, and had retarded the pacification of the country. Nevertheless, he hoped soon to see Mexico and the United States again united in bonds of friendship.

The Provisional President drew a distinction between the attitude of the government of the United States and that of the people of that nation, saying, "the tenseness of our diplomatic relations with the government of the United States of America, although luckily not with the people," had put Mexico into a state of apprehension.

The message was disappointing to many who had hoped that Provisional President would deal at some length with recent diplomatic exchanges.

The silence which prevailed during the reading of the Presidential document by the clerk was broken at its conclusion by prolonged cheers and the Congressmen were joined by the crowds in the galleries.

In his peroration Huerta said:

Guarantees Fair Election.

"The Mexican government regards the pacification of the country as an urgent necessity in order to restore the public services to their normal state, to re-establish the political, social and economical equilibrium and to make possible a programme of reforms which will satisfy the national aspiration.

"I will spare no effort and no sacrifice to obtain the coveted peace and to guarantee fully in the coming elections the free casting of the ballot."

Of the treasury funds amounting at the beginning of the last fiscal year to $27,600,000, $24,900,000, he said, had been expended for the pacification of the country. Of the long end of $100,000,000 authorized in May, French bankers took $30,000,000 at 90. Out of this Spever & Co., had repaid $20,000,000, half of which was a loan to the national treasury and half to the monetary commission. For the army 6,600 horses and 2,300 mules had been purchased during the year. The National Cartridge Factory, he said, was turning out 260,000 cartridges monthly.

Besides a great number of cannon of various descriptions, machine guns, rifles, carbines and ammunition, the government has contracted abroad for ten aeroplanes, 77 armored automobiles and fifty unarmored automobiles and two armed transports.

At the close of the reading of the Presidential message the session of Congress adjourned until tomorrow.

President Huerta's Message.

President Huerta's message in part was as follows:

"Besides the fratricidal strife which exhausts us, the tenseness of our diplomatic relations with the government of the United States, although luckily not with the people, has put us in a state of apprehension and has made us suffer more than one affliction, which was not merited, and retarded the complete pacification of the republic.

"As this affair is of so delicate a nature and as the permanent Commission of Congress already has been informed of the state of the negotiations, which as yet have not been broken off, I have only to indicate that the government hopes with good grounds, to see quickly solved the differences which day by day keep in suspense that good friendship which of old united and for an indefinite future should unite us to our powerful, civilized neighbors.

Huerta Recognized.

"Upon taking charge, by virtue of the law, of the Presidency of the republic, complying with the established international practices, I communicated the fact of my having taken possession to all the foreign governments with which Mexico cultivates relations of friendship. Of these there hastened to answer by autograph letter the following: Germany, Austria-Hungary, Belgium, Colombia, Costa Rica, China, Denmark, Ecuador, Spain, France, Guatamala, Haiti, Holland, Honduras, Great Britain, Italy, Japan, Montenegro, Norway, Portugal, Russia, Salvador, Servia, Switzerland, Turkey and Uruguay.

"I would call the attention of Congress to the fact that in this list are not found some of the small governments in Europe but this is due to the fact that we have no diplomatic relations with them, or that their replies already have been announced through the proper channels and did not reach the chancellory. It has caused surprise and at the same time regret to the honorable chamber, as to the executive, that some of the countries to which Mexico is united by ties of blood, law and customs, and no less by identical aspirations and

SCHMIDT IS SANE OFFICIALS BELIEVE

Discovery of Counterfeiter's Den Reveals Character of Murderer.

DEVELOPMENTS IN THE CASE

Carefully Made Plan of Master Criminal Mind — Dentist Held Under Bond — Servant Girl is Released—Secret Service Efforts.

New York, Sept. 16.—The discovery of a counterfeiter's den which Hans Schmidt, priest and confessed slayer of Anna Aumuller today admitted was fitted up by him to make spurious money, led the detectives, Coroner Feinberg and other visitors to his cell in the Tombs to express the opinion that Schmidt is sane, and that further investigation will develop that counterfeiting was only one of his "side lines."

They declared it their belief that he is feigning insanity, pursuant to carefully made plans of a master criminal mind.

To the Rev. Father Evers, chaplain of the Tombs prison, to his attorney, and other callers, Schmidt admitted his connection with the flat in West One Hundred and Thirty-Fourth street where detectives found bundles of imitation $10 gold certificates.

Dr. Ernest Arthur Muret, the dentist arrested last night after the raid on the counterfeiter's flat, today was held in $5,000 bail for hearing on the charge of having in his possession a revolver, in violation of a State law. Through his knowledge of the law, Muret forestalled the plans of the Federal secret agents waiting to arrest him on a warrant charging counterfeiting.

By waiving preliminary examination Muret temporarily escaped the more serious charge.

Bertha Zech, the servant girl employed by Dr. Muret, and taken to police headquarters with him last night, was released, the detectives telling the

(Continued on Page Eight.)

Foy Not So Sure Johnson the Man

(Special Star Telegram.)

New York, Sept. 16.—Gordon G. Johnson, the Wilmington, N. C., salesman, still languishes in jail on a charge of assault. The police hold him in the hopes that they will round up accomplices in the alleged assault.

Johnson, meantime, stoutly maintains his innocence of any wrongdoing, and Peter Foy, the watchman, whose skull was thought fractured and who at first stated that Johnson was the one that struck him, is now inclined to believe that he was in error, and is not positive that Johnson was one of the assaulting crowd.

Watchman Foy was badly hurt by a heavy blow on the side of the head and was rushed to St. Luke's Hospital. His condition at that time was thought to be serious, but after a thorough examination, and the dressing of the wound, the watchman returned to his home at St. John's Cathedral on Morning Side Heights.

Immediately after Foy left the hospital, a patient in the emergency ward died and the report went forth that it was Watchman Foy. This report was printed in the New York papers, and the report was carried to Johnson in prison. Johnson expressed his regrets, but declared he had no hand in the matter, and vehemently asserted he was not one of the party to the assault, nor did he know any of them.

The opinion prevails at police headquarters that Johnson will be released unless Foy can further identify him, or some of the assaulters are captured and implicate Johnson in the matter.

OUTLINES

Conditional award of contracts for six new torpedo boat destroyers were made by Secretary of the Navy Daniels yesterday.

The United States cruiser Des Moines, ordered to Dominican waters to protect American interests in the revolution there, arrived at Puerto Plata yesterday.

Counsel for Harry Thaw last night laid the foundations for carrying the case to the U. S. Supreme Court. Jerome was clearly outwitted and during the hearing was severely reprimanded by the court.

The Democratic currency bill yesterday continued to resist Republican assaults in such a way that before adjournment last night the bill was more than half completed and will doubtless be passed Thursday.

North Carolina railroads have made a further offer to the Corporation Commission as a settlement of the freight rate problem in the State, giving commodity rates from the West to interior points, but ignoring the ports.

President Huerta's message to the Mexican Congress yesterday promised an unrestricted election next month, rather blamed the United States for continued unsettled conditions, drew a distinction between the attitude of the people and this government and gave a statement of Mexican finances.

New York markets: Money on call firm, 2 3-4 to 3 per cent., ruling rate, 3; closing bid, 2 3-4 to 3 per cent. Flour barely steady; wheat barely steady; corn, easy. Rosin, barely steady; turpentine, steady; rice, firm; spot cotton, steady; middling uplands, 13.25; Gulf, 13.50. No sales.

Priest Who Confessed to Fiendish Murder.

HANS SCHMIDT, WHO KILLED ANNA AUMULLER.

WATER POINTS NOT AFFECTED

Railroads Submit Amended Proposal on Freight Rates Making Interior Changes But Leaving Out Ports.

(Special Star Telegram.)

Raleigh, N. C., Sept. 16.—Chairman E. L. Travis, of the Corporation Commission, just back from Washington where he had been in conference with railroad officials, submitted an amendment proposal from them to the Governor today, in further effort to adjust differences in freight rates between the inter-State carriers and North Carolina shippers.

The most notable amendments to the former proposition of the carriers, which was rejected in August, give additional concessions to Gastonia and points along the southern border of the State, to all ports bordering on the Virgina line, and further concessions to the western part of the State.

Water Points Not Mentioned.

Also there are added to the proposition special class rates on outbound freights to the West, but no concessions are made to water points.

The proposition was submitted to the Governor this afternoon by Chairman Travis, and it is expected that he will submit it in turn to the Just Freight Rate Association officials, in conference at an early day.

Craig Has Nothing to Say.

Governor Craig and Chairman E. L. Travis, of the Corporation Commission, were in conference this afternoon for two hours. Mr. Travis going through the amended proposition of the railroad companies for freight rates settlement very completely.

Governor Craig said after the conference that he will give careful consideration to the amended proposal, but has nothing to say at this time as to whether there is any probability of acceptance, in which event he would simply recommend to the Legislature that the proposition be accepted.

Agree Before Legislature Meets.

He would not discuss the situation but made it clear that he considered the amended proposition worthy of most careful consideration. The fact is that there is considerable impression that this resumption of negotiation will lead to agreement for settlement before the Legislature convenes September 24th.

BOY'S FATAL PLUNGE.

Woodstock, Conn., Sept. 16.—Thirteen-year-old George Bernier, who was holding a guy rope to a balloon while it was being inflated preparatory to an ascension at a local fair this afternoon, was suddenly carried 500 feet in the air and then dropped to instant death in front of the grandstand where 5,000 people were assembled.

BLOCKADE FLEET TURNED TAIL

United States Cruiser Des Moines Arrives Off Puerto Plata to Protect American Interests in Dominican Revolution.

Puerto Plata, Dominican Republic, (Tuesday) Sept. 9.—The United States cruiser Des Moines, ordered to Dominican waters to protect American interests, today arrived at Puerto Plata where two Dominican gunboats were blockading the port.

The steamer Seminole, of the Clyde Line, was stopped as she was nearing port yesterday, and boarded by an officer from off gunboats and told she could not enter the harbor. The captain of the Seminole replied he would enter anyway. Upon being asked what he would do if he were ordered to remain outside, the captain replied that he would go in and take the boarding officer with him if he did not leave the ship. The officer hurriedly returned to the gunboat and the Seminole entered the port. The blockading boats steamed away.

The Seminole had cleared from Ned York before the blockade of Puerto Plata had been declared, and having no munitions of war aboard and relying upon the presence of the Des Moines, entered the port without fear of molestation.

The captain of the Clyde steamer Algonquin, on arriving here today, reported everything quiet in the southern ports which are ostensibly in the hands of the government.

With the exception of Monte Christi and Santiago, the northern part of the island is in the hands of rebels under Gen. Horacio Vasquez, at one time president of the republic. The rebel town of Sanchez and Samana are barricaded and the inhabitants are ready for a fight. Monte Christi is reported quiet, though the people there are much excited.

It is reported that the revolution has spread to Seybo and it is expected that town and LaRomono will be attacked soon.

An officer of the Des Moines, who came ashore today to take the United States consul out to the ship for a conference with the captain was warmly greeted by a number of Americans who expressed their relief and pleasure in having an American man-of-war in the harbor.

ANXIETY FOR THE WASP.

Vessel Chartered to Carry Supplies to Alaskan Mission Missing.

Nome, Alaska, Sept. 16.—Anxiety is felt here for the safety of the power schooner Wasp, which left here six weeks ago for the Kuskokwim river district and has not been reported. The vessel was chartered to carry supplies to the mission in the district and carried Dr. Reed, the newly appointed United States commissioner for the district, and Superintendent Evans, of the Bureau of Education. The Wasp was scheduled to make the trip in 19 days.

RAPID PROGRESS ON BOTH MEASURES

Democratic Currency Bill Probably Ready for Passage Thursday.

TAX ON COTTON FUTURES

This With Income Section is Provoking Discussion in Conference—Likely Some Amendment As to Compromise.

Washington, Sept. 16.—The Democratic Currency bill today continued to resist the assaults of objecting Republicans in the House in such successful fashion that before adjournment was taken tonight, the bill was more than half completed and some of the most important questions settled. It was generally agreed on both sides of the chamber that the measure would come up for passage on Thursday.

The principal debate today was over the provision creating the Federal Reserve Board and that regulating re-discount of commercial paper. Attempts to enlarge the Federal Reserve Board, to eliminate members of the cabinet from its composition and to change the salaries to be paid the civilian members all were defeated with expedition.

The most important amendment brought out during the day was offered from the committee, and agreed to with several Democrats voting against it. This would provide that member banks should have unlimited re-discount privileges with reserve banks.

Another amendment adopted would provide that discounted paper shall have a maturity of more than ninety days instead of sixty as originally intended.

Examination of three experts by the Senate Currency Committee brought some strong support for the administration bill and some sharp criticism of its provisions. Prof. O. M. W. Sprague, of Harvard; Newton D. Alling, vice president of the National Nassau Bank of New York, and F. E Marshall, of St. Lauis, formerly president of the Phoenix National Bank of New York, discussed the measure with the committee during the day.

Senator Reed asserted during the hearings that he objected to long term for members of the Federal Reserve Board that would make that board unresponsive to a change in political conditions.

Mr. Alling expressed the opinion that the best form of government currency would be a general issue of Federal notes secured by a great central gold reserve. He said the government could continue to issue currency on this reserve far beyond its actual value so long as the notes were issued only to meet actual needs of commerce.

Mr. Marshall approved the general principles of the administration measure, but recommended many changes which he believed would make it more acceptable to the banking interests whose support he considered essential to the success of any new currency revision plan.

Work on Tariff Bill.

Washington, Sept. 16.—Modification of the Senate's cotton futures tax amendment to the tariff bill, to make the provision acceptable to the House, will be considered by the tariff conference committee within a day or two. Informal discussion of the subject has developed the fact that the House probably would accept the plan of taxing trades in cotton futures, if the terms of the Clarke amendment were modified.

A substitute for the Clarke amendment submitted to the conferees today by Representative Lever, of South Carolina, chairman of the House Committee on Agriculture, would provide that the tax of 50 cents per bale shall not be assessed where the cotton contracts called for the real government grades and such grades actually are delivered or where the difference in price is paid if another grade is delivered. This and other changes will be considered, in the belief that the cotton futures amendment finally will be retained as a regulatory provision as well as a revenue-raising feature.

Income Tax Section.

The tariff conferees pushed through the sundry schedule of the tariff bill today and reached agreements on most of its provisions. Chairman Underwood tonight expressed the belief that there would be no great differences over the income tax section in which the Senate materially increased the rates of tax on large incomes.

Owing to the large number of amendments to the text of the income tax section, however, it is expected that some time will be spent by the conferees in perfecting the measure to prevent confusion in administration of th elaw.

Cotton Futures Tax.

Representative Lever said today that his substitute for the Clarke cotton futures amendment had the approval of many Southern Senators, with whom he had talked.

The proposal is in the nature of a compromise and was drawn by Mr. Lever after conferences with experts of the Department of Agriculture and Postmaster General Burleson. It is intended to regulate cotton exchange contracts rather than abolish the exchanges.

Under the substitute, if actual delivery of cotton sold on exchange were not made, a settlement would be required on the basis of actual commercial differences as established in the spot cotton market for six days previously between the grade tendered and the basic grade named on the contract, which is usually middling cotton. A nominal tax of five cents

ATHLETICS TAKE FINAL IN TEN INNING AFFAIR

"Stuffy" McInnis Scored the Winning Run in the Tenth Inning

GRIFFS WON FROM CHICAGO

Tigers Took Final Game from St. Louis Browns—Tris Speaker Won Another Game for the World Champions.

Every game in the American League yesterday was won by a margin of one run, 8 to 7, 5 to 4; 4 to 3; and 2 to 1, being the way the scores lined up.

In a game which went for an extra inning before a decision was reached, the Philadelphia Athletics took the final game from the Cleveland Naps by a score of 8 to 7. The ending of this series marks the ending of the Cleveland team, so far as faint pennant hopes, which had persisted in remaining with Birmingham's club, are concerned.

Walter Johnson was called upon to twirl the final game in the Senators-White Sox series yesterday, and being opposed by Joe Benz, of the Sox, a great pitchers' battle was the result. Johnson won for the Senators after an uphill fight, 2 to 1.

The Detroit Tigers won their last game of the season at New York by a 4 to 3 count. Ray Caldwell's string of five straight games was broken by Jenning's men by bunching hits off him in the second and eighth innings.

The Boston Red Sox, with the aid of Tris Speaker and his mighty willow, took the last clash of the season with the St. Louis Browns by a score of 5 to 4.

Athletics.

Philadelphia, Sept. 16.—In a long drawn out game, Philadelphia today defeated Cleveland in 10 innings 8 to 7. McInnis, who led at bat, scored the winning tally on his two bagger and Walsh's single.

Cleveland	000	232	0000	7	6	4
Philadelphia	000	205	0001	8	10	0

Steen, James, Cullop and O'Neill; Shawkey, Pennock, Houck, Plank and Schang; time 2:55; umpires Connolly and Evans.

Walter Johnson.

Washington, Sept. 16.—Walter Johnson and Joe Benz engaged in a great pitchers' battle here today, the former winning after an uphill fight 2 to 1. Weaver's fielding featured.

Chicago	100	000	000	1	6	0
Washington	000	000	101	2	6	3

Benz and Easterly; Johnson and Ainsmith; time 1:40; umpires Dineen and Egan.

Tigers Take Final.

New York, Sept. 16.—Detroit won its last game of the season here today 4 to 3. Jennings' team stopped Caldwell, who had won five straight games by bunching hits in the second and eighth innings. Onslow's hand was hurt in the ninth inning trying to field Holden's single and he had to retire.

Detroit	020	000	020	4	6	2
New York	000	200	010	3	11	0

Dauss and Gibson; Caldwell and Gossett and Reynolds; time 2:12; umpires Ferguson and Sheridan.

Speaker Again.

Boston, Sept. 16.—Boston defeated St. Louis 5 to 4 today in their last clash of the season. The visitors made a hard fight. Williams stole home during the eighth and tied the score. After two were out in Boston's half of the final inning Hooper walked, advanced to second on Engle's infield hit and both moved up on a wild pitch. Hooper came home with the winning run when Speaker drove out a liner.

St. Louis	200	100	010	4	9	3
Boston	102	001	001	5	8	0

Taylor and Agnew; Bedient and Thomas and Cady; time 2:10; umpires Hildebrand and O'Loughlin.

DR. HOGARTY AT THE A. & M.

Noted Football Player Arrives to Assist in Shaping up Team.

(Special Star Correspondence.)

West Raleigh, N. C., Sept. 16.—Dr. John E. Hogarty has arrived on the campus and has started to work assisting Coach Green in developing a football team at A. & M. this year.

Dr. Hogarty is an experienced football player, having played the game for the past seven years, three at prep. schools and four at college. In 1906 he played end on the Exeter eleven, and in 1907 and 1908 played the same position at Dean Academy, where he gained a reputation for his brilliant work. In 1909 he entered Holy Cross at Worcester, Mass., and starred on the gridiron there. In 1910 he entered Georgetown University, and played end for two years, and was elected as an All-South Atlantic end in 1911. In 1912 he was made captain of the Georgetown University team, and was shifted to tackle, which position he played so brilliantly that he was selected for that position on the All-South Atlantic team in 1912.

Dr. Hogarty received his degree at Georgetown last Spring, and is now a dentist by profession, and practices at Boston, Mass. With his wide experience in football he will prove of valuable assistance to Coach Green, and will give his attention to the line while Coach Green looks after the backfield.

Kid Pitchers In World Series

Kid pitchers may play important roles in the world's series—providing, of course, the Giants and Athletics meet to settle the question of supremacy.

For the Giants, Al Demaree, whose pitching has been one of the sensations of the National League race, may face the hard-hitting Mackmen, although McGraw is known not to favor the use of first-year players in so important a series.

However, the Giants' leader broke this rule last year when he used Tesreau against the Red Sox. So it is probable he will follow precedent this Fall.

For the Mackmen, Bob Shawkey will undoubtedly be one of the men to help Bender and Plank, unless the powerful Coombs rounds into shape which made him unbeatable in the past. It would be interesting to see the kids opposed to each other in one of the games, with so much depending upon their efforts, just to see them pass through the fire test.

IN THE MINORS

International League.

MORE PAY FOR TRAINMEN.

Increased Cost of Living Cited as Reason for Increase.

New York, Sept. 16.—The increased cost of living was cited ah a reason why trainmen and conductors should receive higher wages, at today's hearing before the Arbitration committee.

Dr. J. Frank Warne, introduced as a statistical expert by trainmen, presented tables and diagrams showing comparisons in the prices of staple articles on February 15th, 1913 with average price between 1890 and 1899. Eleven of these articles. Dr. Warne said, had advanced more than 50 per cent. Sugar alone had declined. The other articles, according to his diagrams, varied between 23 per cent. and 116 per cent advance. Dr. Warne said that interlocking ownership among railroads worked against the interests of the employes. Whether a majority of corporations' stock is divided between two or more different corporations, he said, there is nearly always agreement as to harmonious action.

This relationship among railroads, he continued, determines the personnel of the boards of directors, which in turn reflects the policies to be pursued. In this was nearly all the issues involved in the requests of the conductors and trainmen are affected.

Asked for proof, Dr. Warne cited the New York Central, which he alleged owns 90 per cent. of Lake Shore & Michigan Southern stock. The Lake Shore, he said, owns 21 per cent of the Reading, and the Reading owns all of the Philadelphia and Reading stock. This illustrated, he said, how far the influence of the New York Central's board of directors extends.

MUST FINISH GAME.

New York-Philadelphia Forfeited Game to be Finished Oct. 2nd.

Cincinnati, Sept. 16.—Making a precedent, the board of directors of the National League ordered the game that was played between the New York and Philadelphia National League clubs on August 30th finished on October 2nd, with the same men in the field and the same status existing that existed on the day that Umpire Brennan awarded the game to New York on account of the spectators allegedly interfering with the batters.

At the time the game was called there was a man on base, one man out, and a ball on the batter, with the score standing 8 to 6 in favor of Philadelphia. This same situation, with the same men in the field and at the bat is ordered to be produced again and the game finished.

GOES TO THE PHILIPPINES.

Albert M. Noble of Smithfield, Gets Job 8,000 Miles from Home.

(Special Star Telegram.)

Washington, D. C., Sept. 16.—Albert M. Noble, of Smithfield, who for two years has been clerk to Representative Pou's committee, today accepted a position as clerk of the United States Court at Tutuila, Samoa.

Alexander Stronach, of Raleigh, is judge of the court. Noble will leave for home the first of next week, where he will be married to Miss Eleanor Myatt before leaving on his 8,000 mile journey. He will be gone two years.

Thomas Beall and A. J. Latham, of Greensboro; W. C. Ervin and A. Kistler, of Morgantown; A. J. McKinnon, of Maxton; W. H. Wood, of Charlotte, and John Ellington and wife, of Fayetteville, are here. G. H. M.

New York at St. Louis.

TAKES LEAD OVER JOE JACKSON

Tris Speaker again yesterday drove in the winning run for the Boston World Champions with a timely single, and by his performance throughout the game, took the lead for batting honors over Joe Jackson, the mighty batter of the Cleveland Naps. Ty Cobb only, is now ahead of Speaker, leading him by a matter of seven points.

Dangerous Bomb Sent to Gen. Otis

Los Angeles, Cal., Sept. 16.—Gen. Harrison Gray Otis, owner of the Los Angeles Times, received an infernal machine by mail today. It was the second time within three years that Gen. Otis' life had been attempted by a bomb.

Any chance of his being killed or injured by the bomb was foiled by the watchfulness of Gen. Otis' Japanese servant, who became suspicious of the package and called his employer's attention to it.

The attempt on his life today was attributed by the general to agencies friendly to those whose conspiracy ended in the destruction of the Times building and the killing of 21 men three years ago. The police and postal authorities, however, believe that the Mexican question probably had a part in it.

The bomb reached Gen. Otis' home at 11 o'clock this morning. It was contained in a small package wrapped in brown paper.

With other mail it was given by the postmaster to the Japanese servant. He removed the wrapping paper before taking it to Gen. Otis and told the general that he thought there was something suspicious about the package.

"I pooh-poohed the boy's belief at first," said Gen. Otis, "but examined the box carefully. I could see parts of matches and black powder. I had the boy remove the thing and asked the police department to send a man to my home."

Capt. E. B. Feltz, a powder expert in the police department, took the machine to a field near the Los Angeles river and there pried open the box. The apparatus was ingenious and deadly. The dynamite when tested exploded, tearing a great hole in the earth.

Gen. Otis had a "surmise only" concerning the bomb.

"That surmise," he sad, "is that it was sent to me by the devils who wanted to blow up the Times and me. They may be the same old gang or segments of the same old gang with the same old animosity."

Chief of Police Sebastian inclined to the theory that the bomb had been sent by some person violently opposed to Gen. Otis' newspaper policy with regard to the Huerta administration in Mexico.

Gen. Otis, who was a close friend of former President Porfirio Diaz, of Mexico, owns much land in the Southern Republic. He is largely interested in the California & Mexico Ranch & Cattle Company, which owns great tracts in Lower California and Sonora.

Reports from Yuma, Ariz., today were to the effect that insurrectos recently had declared their intention to "clean up" all the California and Mexico Ranch & Cattle Company holdings.

GANGMEN IN PISTOL DUEL.

Two Auto Loads of Gunmen in Bloodless Battle in New York.

New York, Sept. 16.—Gunmen, said by the police to be members of rival gangs, whose activity in the primary election today led to the renewal of an old feud, engaged in a revolver duel while seated in two automobiles standing on upper Broadway, just as a nearby theatre matinee crowd swarmed into the street.

The attacking party of seven, after firing on three men in the other car, half a block away, and being shot at in return, attempted to speed away, but were overtaken by a traffic patrolman in a taxicab. Three men jumped from the car and escaped. Four, including the chauffeur, were arrested and locked up charged with attempted felonious assault and violating the concealed weapons law. No attempt was made to capture the members of the besieged party. So far as could be learned, none of the gunmen was injured.

According to the police, the shooting was the outcome of the primary fight in the 15th Assembly district, between rivals for the Democratic leadership. They say the four men under arrest are members of the "Jack Sirocco gang," and that they opened fire on members of the "Hudson Dusters" and the "Rose gang."

A search of the captured car revealed under a rug in the tonneau six packages of typewritten slips containing more that 300 names, supposedly of voters in the Eighth Assembly district, downtown, and the police are working on the theory that the men arrested are "repeaters," who, after voting in the lower part of the city, went up to the 15th Assembly district to "work" the primary there in the same way.

In New York there are 13,000 tenements licensed as factories.

Getting Ready for Sulzer Trial

Albany, N. Y., Sept. 16.—Governor Sulzer and his counsel are busy preparing for the opening of the impeachment trial on Thursday. They have given no intimation concerning their plans for the defense, but it is understood they were practically completed at a conference yesterday between D. Cody Herrick and former State Senator Harvey D. Hinman.

When the court of impeachment meets various questions of procedure will have to be determined.

Much importance attaches to the order of voting by the court of impeachment as to whether or not the charges against the accused have been sustained. Should the judges of the Court of Appeals vote first, the verdict, it is asserted, would have great weight with the members of the Senate.

Counsel for the Assembly board of managers, which has the impeachment trial in charge, will meet in Albany for a conference tomorrow night.

How to accommodate the newspaper men and special writers from all parts of the country who are planning to "cover" the Sulzer impeachment trial, is a problem which is seriously vexing Clerk Patrick E. McCobe, clerk in charge of the re-arranged Senate chamber. In transforming the chamber into a temporary court room, reservations were made for 41 news writers on the main floor, and for possibly as many more in the galleries. Applications already have been received for many more seats, but practically no available space remains.

Mr. McCabe today said that public admission to the galleries would on on the "first come, first served" plan.

Lansing, Mich., Sept. 16.—Not being fully convinced as to who was the chief executive of New York since the impeachment proceedings, the executive office recently addressed a letter containing a request for a requisition from the "Governor of New York" without specifying the name. Today a reply was received in which the requisition had been honored and signed by Governor Sulzer.

New York, Sept. 16.—Hugh J. Reilly, a contractor and railroad builder for the Cuban government, one of today's witnesses before the board of managers in charge of the impeachment of Governor Sulzer, said that he loaned Governor Sulzer $10,000 in cash shortly after his nomination. Governor Sulzer, he said, still owed him this money, in addition to other loans which brought his total indebtedness to Mr. Reilly up to $26,500.

IN STOCK SPECULATION.

Young Baltimore Bank Teller Goes the Usual Route.

Baltimore, Sept. 16.—John Uhler, former teller of the Park Bank, today was held by the grand jury on a charge of embezzlement. It is charged he took funds of the bank aggregating $11,744. He admitted his guilt it was stated today by President John P. Baer, of the bank, and said he had lost the money in stock speculation. Detectives are seeking Uhler, who is supposed to still be in the State.

HEAVY RAINS INTERFERED ON THE NATIONAL CIRCUIT

Three Out of Four Games Scheduled Were Cancelled as a Result

REDS AND PHILLIES SPLIT

Both Games at Cincinnati Were Twirler's Battles Between Seaton and Johnson; Mayer and Robertson.

Rain which fell through the Western circuit of the National League all day yesterday, postponed all games with the exception of the Philadelphia-Cincinnati games. Final games of the series were scheduled with New York at Chicago; Boston at Pittsburgh, and Brooklyn at St. Louis, all of which will go down in baseball history unplayed, it being the last Western trip of the season for the Eastern teams.

Cincinnati and Philadelphia divided their double-header, the locals taking the first game four to three, and the visitors the second, stopped after six innings of play, with the score four to nothing. Tom Seaton and George Johnson, the "Winnebago Brave," opposed each other in the opener, and Mayer and Robertson were the opposing slab artists.

Today the Giants open up in St. Louis for four games, and the Phillies go to Pittsburgh for the remainder of the week, while the Dodgers play Cincinnati and the Braves go to Chicago for a farewell series.

An Even Break.

Cincinnati, Sept. 16.—Philadelphia and Cincinnati divided a double-header here today, the locals taking the first game 4 to 3 and the visitors the second, stopped after six innings by darkness, 4 to 0. A drizzling rain marred the second game.

Philadelphia	000	011	010	3	6	1
Cincinnati	001	010	002	4	5	0

Seaton and Killifer; Johnson and Kling. Time 2:07. Umpires, Brennan and Egan.

Second game—

Philadelphia	004	000	4	7	0
Cincinnati	000	000	0	5	0

Mayer and Burns; Robertson and Clark. Time 1:12. Umpires, Eason and Brenan.

COBB VS. JACKSON

Tris Speaker overrode Joe Jackson yesterday, making three safeties out of five attempts, while Jackson connected twice out of as many trials. Ty Cobb was up three times, and got one hit.

Standing to Date.

	AB	H	Ave.
Cobb	377	143	.379
Speaker	505	188	.372
Jackson	490	182	.371

READY FOR INCOME TAX.

Internal Revenue Service Will be Reorganized and Enlarged.

Washington, Sept. 16.—The Internal Revenue Service probably will be re-organized as soon as the new tariff bill is enacted, preparatory to administering the income tax provisions of the law. Resignations of several collectors of internal revenue, who have been holding over from the Republican administration, are expected to be accepted as one of the first steps.

Secretary McAdoo has been slow in making a sweeping re-organization of this service because he has considered only men of high ability and constructive experience. With the law on the statute books, however, it is said he will quickly readjust the organization. He now is considering the appointment of a commission of experts to assist Commissioner of Internal Revenue Osborn in the task of organization.

The secretary is favorable to the bill pending in Congress for the increase of the salaries of the collectors in certain large districts from $5,000 to $6,000. It is estimated that the office and field force of the commissioner will be increased by 300 employes.

SURVEYORS PROBABLY LOST.

Men on Canadian Boundary Job Entombed by Landslide.

Ketchinkan, Alaska, Sept. 16.—The launch Rough Rider, which was sent out Saturday to give assistance to the Canadian boundary surveyors, whose camp was overwhelmed by a landslide, returned yesterday, having been unable to find the bodies of C. D. Roberts and Harry Bode, who are believed to have been killed, or any trace of the camp.

The slide came from 1,000 feet up the mountain and in the widest part measured 500 feet and from 20 to 30 feet deep. It is believed the bodies of the victims are under the mass of rock, trees, and gravel.

Frank Chance's New "Machine"

Frank Chance has been showing the American League "something different" on his last swing around the circuit. With Maisel, his $18,000 third baseman, and Williams, the hard-hitting first baseman, the "Peerless Leader" has an infield which, with seasoning, will compare favorably with any in the league.

Chance has Roger Peckingpaugh, the ex-Cleveland shortstop, who is playing a wonderful fielding game and hitting the ball opportunely; at second is Jack Knight, the elongated ex-Athleeic, who was chased to the minors from the Yankees only to be recalled by Chance, and Knight is playing a wonderful game these days.

The real Yankee star, however, is Maisel, whose work at third, coupled with his batting, reminds old-timers of the days when Jimmy Collins was third basing in a class by himself. Maisel is one of the brightest stars picked up in years, and Chance has ceased worrying about the difficult corner.

On first base Chance has Cy Williams, a big fellow, who looks as if the only thing he needed was experience. Williams covers lots of ground and is a whale with the swat stick.

BURGAW HAS IMPOUNDINGS.

Stray Cattle Taken Up Provoke Suit. Mayor's Cow "Cotched."

(Special Star Correspondence.)

Burgaw, N. C., Sept. 16.—The town marshal impounded a couple of cows yesterday and the owner, alleging that as they came into town from the outside, he was not liable and asked the authorities to let them go. This they declined to do, whereupon he secured a writ of claim and delivery.

The trial was set for yesterday afternoon, but the officials couldn't get a lawyer to represent them, so the case went over till Friday. Meanwhile the man got his cows. Meanchances are the case will go right on up to Superior Court before it is ended.

This morning the marshal impounded the mayor's cow and his honor came across with the dollar all right, but what he said on the side has not been recorded. An appropriate text for the occasion is suggested as "That mercy I to others show, That mercy show to me!" The stock law here has been full of vexations because of stock running at large, but there will likely be less of this hereafter as the marshal keeps his eyes open and is no respecter of persons.

The funeral of Mr. L. N. Bowden was held in the Methodist church Sunday at 3:30 P. M., conducted by the pastor, Rev. T. G. Vickers, in the presence of a large congregation. Interment was in the Burgaw cemetery. All members of the family were present, Mr. Mc. Bowden, a son, having arrived from Galveston, Texas, Saturday on the midnight train.

Cotton is beginning to come in and the gin will probably start up in a few days. From reports received here of the sales of tobacco at Wallace and Warsaw, it looks like tobacco is growing far more profitable than cotton and it is to be hoped that Pender farmers will engage in it as it can certainly be grown here to good advantage.

Mr. and Mrs. A. H. Paddison spent Sunday at Point Caswell with relatives.——The friends of Mr. F. P. Sidbury, of Ashton, will be interested to learn that he had a successful operation performed on his foot last week, having a toe amputated. At last reports he was doing nicely.——The Sunday School Institute at Pike church last week was quite successful. It included Friday and Sunday. Burgaw people attended Sunday.——Mr. Tom Herring and wife, of Rocky Mount, spent Sunday here with Mr. Herring's father, Mr. I. W. Herring.

Rev. G. F. Hill, who has been serving St. Mary's Episcopal church here for several months, left Monday for Alexandria, Va., to enter the seminary there.——Friends of Mrs. H. L. Cook will be interested to learn that she is pleasantly located in Chattanooga, Tenn., and that the family finds the climate very agreeable.

INDIANS GIVEN TIME.

Drouth Among Crops in Oklahoma Given as Reason for Extension.

Washington, Sept. 16.—On account of the severe drouth, which for weeks has prevailed in Oklahoma, resulting practically in the destruction of crops, Cato Sells, commissioner of Indian Affairs, today announced the extension of one year of the deferred payments due between November 1, 1913, and March 1, 1914, on all lands of the Choctaw, Chickasaw, Seminole and Creek nations sold to settlers during the years 1910, 1911 and 1912.

"While this extension," said Commissioner Sells, "is helpful to the purchasers, it is in no way harmful to the interests of the Indians as the security is ample and the indebtedness interest hearing. There now is more money to the credit of the Indians than can be distributed among them under existing laws before the extended payments come due."

On Tuesday, Sept. 23rd, the Atlantic Coast Line will sell round trip tickets from Wilmington to Jacksonville, Fla., at $7.50, and to Tampa at $9.50, limited returning to reach original starting point not later than midnight of Tuesday, Sept. 30th, 1913. Proportionate rates will be made from other points in Virginia, North and South Carolina.

Ample Pullman and coach accommodations will be provided for all passengers, and everything will be done by the management of the Atlantic Coast Line to make this a first-class excursion.

For tickets, Pullman accommodations and schedules, 'phone 160, or address, T. C. White, General Passenger Agent, or W. J. Craig, Passenger Traffic Manager, Wilmington, N. C.

Boston, Mass., Sept. 16.—Johnny Kilbane, of Cleveland, O., the featherweight champion, won a decision over Jimmy Walsh, of Boston, in a 12-round bout at catch weights here tonight.

British Motor Boat That Repulsed Yankee Challengers

Maple Leaf VI, E. Mackay Edgar's famous speed craft, which, as the official representative of the Royal Ulster Yacht Club, successfully defended the Harmsworth trophy, emblematic of the International motorboat championship, for Great Britain, at the recent regatta at Cowes, England. Three speed boats from America made an ineffectual attempt to win back the trophy that the Maple Leaf had won away at Huntington Bay last season.

BARGE CAPTAIN'S STORY

Master of the Foundered Berkes, Recovered From Day in Sea, Tells of Storm Experience—Rode a Spar and Saved Himself.

(Special Star Correspondence.)

Newbern, N. C., Sept. 16.—After spending several days at Englehard, N. C., recovering from the effects of the exposure he received during 28 hours he was in the water, clinging to a piece of floating timber, Capt. E. H. Derrickson, of Philadelphia, who was in command of the barge Berkes, which was wrecked between Gull Rock and Bluff Shoal, Pamlico Sound, during the storm which raged along the North Carolina coast on September 3rd, has recovered sufficiently to be able to start home.

In a letter written by Captain Derrickson to a friend in this city, he gives a graphic account of the storm and the wrecking of his vessel, which was loaded with more than 700,000 feet of lumber, consigned by the Neuse Lumber Company, of this city, to the Henry Dickson Sheets Company of Philadelphia.

On Monday morning the tug Currin, of Philadelphia, steamed into this port and took into tow three barges, the Anna N. McNally, the Joseph Clinton, and the Berkes, the latter vessel being placed on the end of the line, and this is accountable for the fact that she was lost. Leaving Monday afternoon the vessel struck rough weather Tuesday in Pamlico Sound. During the early part of the day the storm was not so bad. During the afternoon the wind increased, and the barometer began falling.

Knowing that they were in for some rough weather, the crews of the boats made everything as secure as possible while the tug put on all possible speed.

Early Tuesday night the wind was blowing a gale and the waves, according to Captain Derrickson's statement, were mountain high. The tug and her three tows were tossed about like corks, but weathered the gale during the early part of the storm.

Some time between midnight and the break of dawn on Wednesday morning, the Berkes rammed the stern of the Anna N. McNally, knocking a big hole in the vessel and carrying away her rudder post. A short time later the Berkes broke her hauser. With the wind blowing at a velocity of 90 miles or more an hour, and the water going entirely over the boat every few moments, it was impossible for the tug to even make an attempt to pick her up, but regardless of this, the captain of the Currin did all within his power to get a line to the Berkes. The crews of the other two barges also endeavored to get a line to the Berkes, but all attempts proved futile, and the vessel and her crew had to be left alone.

Heavily loaded with lumber, the big barge was little more than a plaything in the hands of the storm, and Captain Derrickson says that she was tossed about like a chip. Finally, unable longer to stand the terrific battering by the waves, the boat began to break up, and soon the water in that locality was filled with floating debris.

Seeing that there was no possible chance of saving the vessel, and knowing that if he ever expected to see land again that he must leave the vessel, Captain Derrickson seized a heavy piece of timber and jumped into the Sound. Then he began a battle for life which, in the end, he won, but was so exhausted that it took him several days to recover from the effects.

For 28 hours he clung to the piece of timber which he had taken from the vessel. Time and again, he says, his grasp on this was almost loosened by the heavy waves, but each time he took a firmer hold and managed to retain his grasp. All during Wednesday and Wednesday night he floated about in Pamlico Sound, with naught but this small piece of timber between himself and eternity.

On Thursday morning, just when the brave seaman thought that he could hold on no longer, he was sighted by Albert Best, a fisherman, whose home is at Stumpy Point, and was taken in the latter's boat and carried to Englahard. The point at which Captain Derrickson was found is about 15 miles away from the place at which his vessel went down. With Captain Derrickson on board of the Berkes were two colored seamen and a dog. All were drowned. The body of one of the men has since been recovered and buried at Juniper Bay.

Captain Derrickson is 61 years of age, and has followed the sea for more than 40 years. He has been shipwrecked four times — the first time at Beaver Tail, the second off Phinwick's Island, the third at Gum Picket Shoal, and the fourth and last time at the point above stated. He has sailed on many seas and has seen many bad storms, but the storm of September 3rd, on the North Carolina coast, was, he says, the worst he has ever encountered. The lumber on the Berkes was valued at $8,000. This was uninsured and the owners are the losers.

FAYETTEVILLE BOOSTERS.

Thirty-six Automobiles Full of Them to Go on Boosting Tour.

(Special Star Correspondence.)

Fayetteville, N. C., Sept. 16.—Thirty-six motor cars will leave here the morning of October 15th, to carry the Fayetteville Boosters through the lower counties of Central North Carolina and the northeastern counties of South Carolina.

This was settled at a joint meeting of the Chamber of Commerce and the Cumberland County Automobile Society last night. Almost twice as many cars have been promised by the Automobile Society as made the trip last year. These will accommodate some 180 representatives of Fayetteville's business interests. A definite route has not been selected. A tentative plan was gone over at last night's meeting, but was referred back to the committee. The booster trip was a splendid success last year, and the Chamber of Commerce is working to make it an even better affair this Fall than it was then.

TWO KILLED AT ONE SHOT.

Discharge of Shotgun at Allendale, S. C., Snuffs Two Lives.

Allendale, S. C., Sept. 16.—One discharge of a shot gun in a street fight here late yesterday ended the lives of J. V. and W. H. Hogg, brothers, of Kline, S. C., as a result, J. W. Hogg, a distant relative, is held in jail.

The origin of the trouble is not known. A general fight, in which a half dozen men exchanged blows, is said to have preceded the shooting. The two brothers stood near together when the shotgun was discharged, one receiving a portion of the load in his right shoulder while the remainder entered the left shoulder of the other. J. V. Hogg died instantly, and his brother lived only a few minutes.

SOUTHPORT SCHOOL OPENS.

Large Attendance at First Session—Dredging Proposed on Bar.

Southport, N. C., Sept. 16.—The opening of the high school on Monday morning was most auspicious in every way. There was an aunusually large attendance of patrons and friends, who manifested a personal interest by their presence. There was an enrollment of 217 pupils, compared with 182 last year, and there were addresses by a number of visitors, together with those of the new superintendent, Mr. Robt. E. Ranson, that aroused the enthusiasm of the pupils.

After reading of the scriptures by Rev. C. M. Lance and prayer by Rev. Mr. Wheeler, Superintendent Ranson made his address of welcome, followed by the teachers. In behalf of the Civic Club, Mr. M. C. Guthrie, county superintendent of education, presented the school with a globe, an atlas and dictionary, adding that the Civic Club promised to assist the school during the year, as the services might be best needed.

Mr. Guthrie says the compulsory education law in Brunswick county will be enforced as far as possible. An attendance officer has been appointed, and census of all children between the ages of 8 and 12 years taken, and a record of their failure to attend the prescribed time will be kept and the penalty enforced.

Regular equinoctial weather prevails, with stiff northeast gales for several days. Today the wind is accompanied by rains.

Major Stickle, accompanied by a member of a prominent dredging company, was here a few days ago looking at the Cape Fear bar. It is understood that the work of lowering the bar depth to 35 or 40 feet, by dredging and jettying, will soon be undertaken.

The work of encasing with concrete the new railroad pier pilings is expected to begin this week.

The gun practice at floating targets at Fort Caswell is now going on, both day and night drills, the Gen. Getty being employed in towing the targets. In connection with this night drill at sea, a story is told of the previous practice of having the boat which towed the floating target without lights showing, entirely done away with because on one occasion the tow boat proceeding in darkness had her propeller caught, and had to stop. Meanwhile the target was slowly coming up to the stopped boat, and the fort guns continued to blaze at the target, which was all the time drawing nearer the tow boat. When the situation was finally revealed, there was almost equal consternation among the gunners as there was on the tow boat among the crew. Now the orders for the boat towing a target at night is to have every light on board showing.

THE DAY IN CONGRESS.

Brief Resume of Work in House and Before Committees.

Senate:

Not in session, meets Thursday.

Banking and Currency Committee continued hearings on Administration Currency Bill.

Tariff conferees resumed work and near end of adjustment of differences between the Senate and the House.

House:

Met at noon and resumed detailed consideration of Administration Currency bill.

Adopted amendment introduced by Representative Bulkeley, of Ohio, to permit member banks unlimited rediscount privileges with the proposed Federal reserve banks.

Adopted several minor amendments from the committee.

Adjourned at 6:25 P. M. to noon Wednesday.

SCOTTISH RITE MASONS.

Eighty Candidates Given the Thirty-third Degree Last Night.

Philadelphia, Sept. 16.—The Supreme Council, Ancient and Accepted Scottish Rite Free Masons, Northern jurisdiction, which is celebrating the centennary of its founding today, opened in full ceremonial form. After the opening the council received the thirty-second degree Masons, who desired to hear the report of Sovereign Grand Commander Barton Smith. The council is composed of thirty-third degree members of the order.

The thirty-third degree was conferred on about 80 candidates tonight.

OTHERS SLEPT SHE WORKED

While Others Were Fast Asleep, Mrs. Sanders Would Often Get Out of Bed and Do Sewing.

Cadiz, Ky.—"I was in a terrible condition, caused from nervousness," says Mrs. Boon Sanders, of this place. "At times last Spring and Summer, I did not get any rest at night; could not sleep at all. Very often I would get out of my bed and do some sewing, while the rest of the family were fast asleep.

One of my lady friends advised me to take Cardui, the woman's tonic. Just as soon as I commenced taking it, I began resting better. After taking four bottles, I now feel better, and get perfect rest and plenty of sleep. I am doing every bit of my housework now, and although I am small, I feel very strong in every way.

You may publish this letter if you wish, and I hope all women who suffer as I did will try Cardui and get relief."

If you are nervous, run-down, discouraged, fagged out, don't give up—try Cardui, the woman's tonic. This great medicine has been used for more than half a century by thousands and thousands of women, and has been found to be a specific, building medicine for nearly all the ills from which women suffer.

Cardui, being composed of harmless vegetable ingredients, cannot possibly harm you, and is almost certain to help you. Try it.

All druggists sell Cardui.

N. B.—Write to: Chattanooga Medicine Co. Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper.

ABSOLUTE REST FOR LANE.

Secretary of the Interior Moved to Quieter Quarters.

Berkeley, Cal., Sept. 16.—The condition of Secretary of the Interior Franklin K. Lane today was such that his physicians ordered his removal from the home of his brother, Dr. Freric Lane, to a quieter portion of the city. He was taken to the residence of Assistant Secretary of Interior Adolph Miller, in North Berkeley. Secretary Lane's physicians tonight said that absolute rest for at least two weeks was essential. All departmental communications from Washington are being withheld from the patient.

SNAKE'S LONG TRIP.

Brazilian Reptile Makes Panic in New England Factory.

New Britain, Conn., Sept. 16.—A five-foot snake created a panic among employes in the Landers, Frary & Clark cutlery factory at New Britain, Conn. It was found among a shipment of cocabola wood received from Brazil.

While women huddled on tables and chairs, men chased the reptile from one department to another until it was finally cornered and killed in a barrel. The snake was of the adofang species, whose bite means instant death.

GOOD WAY TO DO BUSINESS

J. Hicks Bunting Drug Co. Sell Reliable Remedy at Half Price and Guarantee a Cure

When one can buy gold dollars for fifty cents, it is a good time to purchase.

In ordering a 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at 25 cents, they are giving one of the greatest trade chances ever offered to the people of Wilmington.

Even though offered at half price for introductory purposes the specific is sold under a guarantee to cure or the money will be refunded.

If food does not digest well, if there is gas or pain in the stomach, if the tongue is coated and the breath bad, if there is constipation and straining Dr. Howard's specific will cure you. If it does not, you have Druggist J. Hicks Bunting's personal guarantee to return your money.

Dr. Howard's specific gives quick relief and makes permanent cures of constipation, dyspepsia and all liver troubles.

These are strong statements, but J. Hicks Bunting is giving his customers a chance to prove his truth at just half the regular price—sixty doses for 25 cents. If they are not found true all you have to do is to ask for your money.

AVOID THE BRONCHIAL COUGHS OF EARLY FALL

The changeable weather of early Fall brings on bronchitis and a hard cough that is wearing on the system, and seems to tear open the bronchial tubes and mucus lining of the throat. Use Foley's Honey and Tar Compound promptly. For it will soothe and heal the inflamed mucus lining, relieve the cough quickly, and help to expel the cold. It contains no opiates. Get the genuine in the yellow package, and refuse substitutes.—R. R. Bellamy.

THE GREAT

MAJESTIC RANGE

Isn't it the truth?

Every housewife spends by far the most of her time in the kitchen, and least of her time in the parlor, yet, it's surprising, how many have a $500.00 piano in the parlor and a cheap, worn-out cook stove in the kitchen.

Now, is *your* kitchen a pleasant place for you, or does that old, worn-out range or stove give you as much trouble as ever? If so, why not eliminate all this worry, bother and needless expense by putting in a

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC., Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year; $3 for six months; $1.50 for three months; 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and, if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders and postal money orders for the paper should be made payable, and all communications should be addressed to, THE WILMINGTON STAR CO., Wilmington, N. C.

Wednesday, Sept. 17, 1913.

Why not use the Ben Davis apple for making wood pulp?

Frosts in the North and Northwest. Crops in the South growing right on.

War, and also several years after war, are about the same as General Sherman said about war.

A man may forget that little bill but he never forgets to duck in somewhere if he sees the fellow that's got the bill.

Republican officeholders are not at all retiring in disposition—in fact, they so much resemble a Democrat in that particular that it is impossible for either to prove an alibi.

The tradition that Diogenes went around with a lantern looking for an honest man indicates that the men in the limelight at that time didn't make any showing that was at all satisfactory to him.

Six girls engaged in a Paris dressmaking establishment made a gown in twenty minutes. That is stated as a remarkable circumstance, but we don't know whether it is or not, for dresses are so narrow and there is so little material in them that six girls would hardly have a handful.

Bernice Warren, the writer, inquires: "Are you a coward?" Gwan! What's the use gettin' personal? It all depends, anyhow. A man may be the lion of the occasion at a cabaret and then go home and be afraid to admit that he was even a mountain lion much less one of the roaring kind.

Because Mrs. Cornelius Vanderbilt, noted society beauty, is a guest of royalty in England, it is said in the society columns of the metropolitan papers that "she is the envy of her country women." English royal folk are all right, but why should American society people toady to royalty any more than royalty should toady to them?

SENATOR SMITH'S VOCATIONAL SCHEME.

Vocational education is regarded as so essential, the probability is that the government will undertake it in a way, probably more as a demonstration than anything else. Senator Hoke Smith, of Georgia, is championing a measure in the Senate with a view to instituting a plan for the government to promote the cause of vocational training. It is believed the Smith measure will pass. It is a joint resolution which provides for a commission of nine members to whom shall be assigned the duty of studying and formulating some plan by which there can be established a system of vocational education under the auspices of the government. The Savannah News notes the passage of the Smith resolution by the Senate and as the House committee on education has reported it favorably, it is believed the House also will adopt it. Says The News:

"The scheme is a good one. There is a great need of vocational education. If there were more of it the country would be better off. The kind of education that the big majority of the youth of the country are getting isn't the kind that brings bread and butter. Vocational education makes breadwinners. There are thousands and thousands of young men and women in every State that have graduated from high schools and some from colleges who are practically helpless because what they know cannot be turned to account in earning a living. It is to remedy this condition of affairs, to prepare young men and young women for a vocation, that Senator Smith is trying to get the government interested in vocational education."

The Star has often advocated vocational education and technical training for young men and women, so they can leave school and enter upon a useful career without waiting several years to find themselves. The trained young man and girl who begins earning at once is an asset to the country as well as to themselves, and while some of our colleges are so educating those who elect to take such courses, that feature of education has not been reduced to a system.

Everybody endorses the idea and value of vocational education, but how far the government shall go into it is the question. Shall we depend on the government for everything? Anyhow, the government can aid in establishing and promoting some sort of system, as it has done in its aid to the agricultural and mechanical colleges in the different States. We came very nearly saying that the government has only its schools of war, the military and naval academies, but in a way it already has been assisting the North Carolina College of Agriculture and Mechanic Arts. Some of the courses in that institution are vocational.

Wilmington ought to be interested in education of that kind in a local way, for it has been discussed and a donation of $100 has been offered by one patriotic, far-sighted, and public-spirited citizen towards the establishment of such a school in connection with our public school system. We must not drop it, but carry out the idea. Every trained man would be worth more to himself and consequently would be worth a great deal to Wilmington. He would be a more useful citizen and would be a benefit to every other man, woman and child in the city. Indirectly every useful man in a city is everybody's asset.

MURDER NEVER RIGHTS A WRONG.

At Millen, Ga., Saturday, Mrs. Edna Perkins Goodbee was found guilty of murder for shooting and killing the second wife of Judge Goodbee, her former husband, who had married again after he and his first wife had been divorced. The condemned woman also killed Judge Goodbee at the same time, having laid in wait for them at the postoffice and perforated both with bullets. The slayer was found guilty of murder in the first degree but the jury recommended life sentence, so that was the judgment of the court.

The woman was surprised at the verdict, for she expected to be acquitted. Having committed the deed in the most deliberate manner, it is curious how she expected anything but a verdict of guilty of murder. The woman received her sentence with coolness, but the newspaper account of the trial adds: "Her daughter, Sarah, a school girl, broke into sobs which echoed through the breathless room. Her sisters and cousins and relatives sighed. Tears came to the eyes of some, but Mrs. Goodbee never flinched." She pateed her sobbing child's face, and said: "It will come out all right in the end, Sarah!" She declared." She patted her sobbing child's der for the sake of her children, but having committed murder, she brought the verdict of guilty upon herself and bequeathed it to her children. Wherein did the commission of murder help to right her wrongs? She made her troubles a hundred-fold worse, and, besides, her whole family will suffer with her.

Those who take life show their cowardice by exhausting every avenue the law opens to escape the penalty. Murderers resort to subterfuges and money to keep out of the electric chair or keep off the gallows. The slayer, whether he is acquitted or not, has helped to make the criminal record of his State, county and community. Those who take life and manage to save theirs, nevertheless, leave an indelible stain on the family name to be handed down to generation after generation till eternity Even should a slayer get off on the plea of insanity, the taint is visited upon the family forever. The brand of Cain is ineffaceable.

The man or the woman who barely escaped being hanged or electrocuted, or who ought to have forfeited their lives as a penalty for malice, for cunning, for devilishness and passion, even though they escape on some plea or lack of evidence, put on the family a punishment that is a nightmare to every member who has a recollection. Memory — unforgetting, never failing to remember by day or by night, always reverting with pangs to the past, is the punishment, whether or not the murderer or the murderess managed to escape execution.

"It'll come out all right—" never till the kingdom come. Sobs may be hushed occasionally in the Goodbee family but they will recur again and again so long as the human faculty of remembering endures. Memory brings its pains as well as pleasant recollections, but there are members of some families who inflict pains for a lifetime on all the balance of the family. The handy pistol, the avenging blade, the poison cup each is a ghastly heirloom to hang onto the family tree. "Out d——d spot." Well, not so long as you and the balance of the family can remember.

WATCH THE WATER POINTS.

It is very evident that the railroads are anxious to get this freight rate business settled up before the North Carolina Legislature meets and takes hold of it, not because the Legislature can regulate inter-State rates but because it can do pretty much as it pleases with intra-State affairs. The fact that the carriers yesterday submitted an amended proposal to the State officials indicates that they are willing to give a little more ground, their first offer having been emphatically rejected.

It is also evident to us that, in their hurry to give commodity rates to and from the West to interior North Carolina points, they are trying to get still farther from the ports of the State and hope to get the back of North Carolina's head toward the ocean. They know better than anybody else except experts in water point cities that the ports of the State hold the key to the entire rate situation and they would very naturally like to steer clear of a settlement on a basis of port recognition and port rate basing. In offering still further concessions to points on the northern and southern boundaries of the State and to points in the western portion of the State, they make no mention whatever of eastern water points. This whole rate-basing port idea seems to be a tender spot with the railroads and the sooner they are touched on that spot, the sooner we believe North Carolina will enjoy the rates to which she is entitled.

The Legislature is expected to examine into this phase of the freight question, and it is to be hoped that it will inspire the Corporation Commission to go ahead and help "uncork" Wilmington and other ports in the State, by making a rail rate within the State which will enable interior points to profit by the rate Wilmington already has. We have not got all the "port" we need, but we've got enough to start on.

We have as much water in the Cape Fear at this point as Norfolk had when that city was made a rate-basing port, and a lot of people are wondering "how come" the powers that be in the State, to say nothing of the Inter-State Commerce Commission, cannot legislate a little so that what freight does come could find its way out into the State without having to climb over a Chinese wall that separates the State from its chief port.

EMPLOYMENT FOR THE IDLE.

Some of the larger cities consider the boy problem one of the greatest that concerns the public. Great gangs of loafing boys, growing up in ignorance, idleness and vice are a menace to a city. Compulsory education reaches some of them, but in the great cities, and even in the towns, the loafing boys are getting to be more of a problem than ever.

It is said boys do better when they have something to do and get pay for it. If a boy loafs, he will get into mischief and sooner or later engage in devilment. Some workers in cities are planning to give employment to boys and encourage them to become industrious. The boy will quit a payless job as quick as a man, and so it is regarded as a safe plan to make a partner of the industrious boys, otherwise let them profit from their work.

Diversified manufacturing industries would give employment to many idle boys in Wilmington. In fact, they would employ all our idle people and keep them from going to the more active industrial cities. If Wilmington is going to attract population and hold its own with other cities, it may as well make up its mind to become a manufacturing city. The manufacturing cities in North Carolina and everywhere else are the ones that are growing. Don't let us forget that.

We ought not to forget that we should organize more thoroughly for the purpose of making an industrial city of Wilmington. We should never fall down on our job along that particular line.

CURRENT COMMENT.

The finest crop of all varieties of grapes ever harvested at our local vineyards both in quantity and quality is just now about closed out. A few more days shipments will take the last of them, leaving many orders unfilled. The prices have all the season ruled as high or higher than in former years, due to the wise business management of the Tryon Fruit Exchange. The demand this season has greatly exceeded the supply, resulting in good prices commanding throughout the whole season.—Polk County News.

The Raleigh Times and the Charlotte Observer are of the opinion that through experiments being conducted under the auspices of the National and State Departments of Agriculture the scuppernong grape will be developed into a bunch grape with a tender skin and a soft pulp. The experts who bring such a thing to pass will certainly be called blessed. The scuppernong has the finest flavor of all the grape family and is not only the finest flavored for eating, but makes the finest wine that is produced in this country. Success to the plant breeders.—Charlotte Chronicle.

As the time draws nigh for Governor Craig to say where that $40,000 from the government and $80,000 to be supplied by the counties interested is to be expended for roads the interest in the proposition increases. With a total of $120,000 available for roads the section that gets it will be lucky. That money will build anywhere from 100 to 200 or more miles of good sand clay road, depending upon what part of the State the roads are built in, and the highway outstanding will be an outstanding example of road building and the results of road building. If the money is expended on the Central Highway through the State or on any direct line the counties traversed should be bound up in an agreement to forever keep the highway in good repair.—Charlotte Chronicle.

Time was, and not so long ago, that New England held the dominant influence in Congress. The Senate was in complete control of the New England statesmen, who generally got what they wanted, particularly in the way of tariff legislation. But times have changed. President Fess, of Antioch College, Ohio, is impressed with the fact. He was recently led to observe: "I have been often asked why the South is so strong in Congress, and my answer is, because the South picks her men to send to Congress and sends them year after year, until they become experienced at their duties. There are 17 great communities in Congress, and 16 of them have Southern men at their head, while the North has one chairman, that of the Appropriations Committee." This might be said to be a case of "the survival of the fittest." Certain it is that the South has attained its commanding position in Congress solely by reason of the superior talents of the men it has been able to send there. It has notbeen by chance or political preferment.—Charlotte Observer.

RAISED $15,000 IN 15 MINUTES

Wilson Baptist Congregation Shells Out for New Church Building

(Special Star Correspondence)

Kinston, N. C., Sept. 16.—Rev. C W. Blanchard, pastor of the First Baptist church here, raised more than $15,000 in ten minutes at a meeting of his congregation when he urged them to donate to a new edifice to be erected at McLeween and Gordon streets.

Pastor Blanchard addressed the meeting, which include all of the membership by any means, and described to his flock the plan for a two-year payment fund. Then he announced that he would try to secure promise for $15,000 from his auditors in 15 minutes. At the end of ten minutes the subscriptions totalled $15,150. By the end of the canvass the fund reached $16,501. If the membership had been present in full force the amount would have reached $20,000, it is believed. Bulletins were posted in plain view of the doors and the spirit of giving partook of the nature of a generous rivalry. The new church of the Baptists will cost $35,000, and the materials in a building now used by them will prevent the cost from being larger, as the new house will be erected on the same site. It is of beautiful design, and will be rushed to completion. It is the fourth handsome church home to be erected by local congregations in two years, the Methodists having completed one, the Christians and Universalists now having edifices in course of construction.

Mr. Needham F. Moore, a well-known man of this city, died yesterday at his home on Heritage street. Mr. Moore was a native of Lenoir county, and all his life had been spent in Kinston and this vicinity. He had been in declining health for about five years, as the result of injuries received on a railroad yard here, it is said. He was 64 years of age, and is survived by the widow, Mrs. Fannie A. Moore, and several children. The funeral will be held this afternoon at 3 o'clock, with interment immediately afterward in Maplewood cemetery.

Prisoners on the lower floor of the county jail here have been deprived of the privilege of talking with their friends on the outside at close range. Today a fence was erected on one side of the building, and conversation that is not overheard by a jailer will from now on be carried on from a distance of five yards or more. However, the vision of the inmates will not be restricted, as the fence is of large-mesh wire.

TRAIN HEARING TODAY.

Mixed Train Service Wanted on Wilkesboro Road—Notes.

(Special Star Correspondence.)

Raleigh, N. C., Sept. 16.—The petition of Elkin and Wilkesboro citizens for a change of the mixed train between Winston-Salem and Wilkesboro to a straight passenger will be heard in Winston-Salem Wednesday.

The Supreme Court this morning received with beautiful ceremony a splendid oil portrait of Judge Thomas C. Fuller, distinguished citizen, lawyer and jurist, and ordered it assigned to a place of honor on the walls of the court room.

A distinguished company of relatives and friends filled the court room and heard with special pleasure a masterly address on the life and character of Judge Fuller by Hon. C. W. Broadfoot, of Fayetteville. Acceptance was by Chief Justice Clark, of the court, who declared it especially fitting that portraits of distinguished lawyers as well as judges be given place on the walls of the court room since these lawyers so intimately impress the court and the opinions recorded.

Judge Fuller was born in Fayetteville in 1832, served in the Confederate army with distinction and was the youngest member of the Confederate Congress. Later he was elected to the Federal Congress but was not seated. He located in Raleigh in 1872 and was appointed in 1891 as a member of the United States Land Claims Court and was a member at the time of his death in 1901. Children of the distinguished jurist here for the ceremony were W. W. Fuller, New York; Frank Fuller, New York; Jones Fuller, Durham; Mrs. S. F. Hall, Durham; Mrs. W. E. Borden, Goldsboro.

Pender County Company.

A charter was issued today for the Keystone Land & Lumber Co., of Scott's Hill, Pender county, capital $50,000 authorized and $15,700 subscribed by a number of Northern capitalists with E. K. Bryan as the resident stockholder. There is an amendment to the charter of the Sneed-Umstead Co., of Durham, changing the corporate name to Carrigan-Rogers Drug Co. J. C. Carrington is president.

ROUTED FLY AND SKEETER.

Campaign Against Pests in Greensboro a Thorough Success.

(Special Star Correspondence.)

Greensboro, N. C., Sept. 16.—The campaign on the fly and mosquito led by Mr. E. P. Wharton and Dr. J. T. J. Battle, has been a success. It was the first campaign of the kind conducted on a general scale ever witnessed in the State, and naturally much interest has been shown in it.

Mr. Wharton is leader of the fly campaign and Dr. Battle of the mosquito campagn. It is true that not all bies and mosquitoes have been exterminated, but they have been reduced to a minimum number. Such a campaign another year begun a little earlier and a little more generally cooperated in, would leave no room for either of the pests. Every day Mr. Wharton and Dr. Battle receive letters of commendation from citizens for their noble and gratuitous efforts, while inquiries as to methods come from many other places.

A two-weeks term of Guilford court for criminal cases will commence Monday with Judge Shaw presiding and Solicitor Bower prosecuting. This will be the first appearance of Solicitor Bower, whose home is in Lexington, in Guilford court. Five murder cases and many other cases of considerable importance are enough to frighten a new solicitor, but Mr. Bower when here this week did not exhibit any nervousness over the prospect. It is expected that the murder cases will be warmly contested, and the five cases will take up most of the two weeks.

THOSE COSTLY PEARLS FOUND.

London Workman Picks Up $650,000 Worth of Gems—$50,000 Reward.

London, Sept. 16.—A. G. Horne, a piano factory worker, this morning found on a sidewalk practically the entire pearl necklace valued at $650,000 which was stolen on July 16th, while in transit by mail from Paris to London.

Horne was going to work when he noticed the pearls lying in a heap. He took them to the nearest police station, where they were at once recognized as part of the famous necklace from which only one pearl is now missing.

On September 2nd, five men, three Englishmen and two Austrians, were arrested when trying to dispose of some of the pearls in London. They are believed by the police to belong to a notorious international gang of thieves.

Lloyds has made no announcement regarding the payment of the reward of $50,000 ocered for the return of the jewels.

The necklace, said to be the most valuable in the world, was in transit between the dealers when stolen. Rumor indicated that it was destined for Mrs. W. K. Vanderbilt.

The workman who found the valuable jewels informed the police that they were carelessly wrapped in a piece of tissue paper. He said he first passed them by as he thought the package was merely a ball of crumpled waste paper. He kicked it and felt something inside and then decided to take a closer look, with the result that he found the package contained a number of large pearls.

The necklace originally was composed of 61 graduated pearls, weighing altogether 1,250 grains. The center pearl weighed over 47 grains. The string of pearls was fastened by a diamond snap of rare workmanship.

The theft of the necklace from the registered mail was cleverly carried out. The postal seal on the original packet when delivered to the London dealer did not appear to have been disturbed in any way, but when it was opened, it was found to contain instead of the jewels, only a number of pieces of French sugar.

Cincinnati, Ohio, Sept. 16.—The National Baseball Commission, after informally discussing matters of routine interest, adjourned today. It was announced that a complete list of players involved in drafts made by the major leagues probably would be published Thursday.

FORREST'S MEN TO PARADE.

Survivors of Famous Cavalry Command at G. A. R. Reunion Today.

Chattanooga, Tenn., Sept. 16.—Activities of veterans attending the Grand Army of the Republic's 47th annual encampment here, increased today. Business sessions also were begun by several allied organizations meeting simultaneously with the veterans. Interest of all tonight, however, centered in the parade of veterans, scheduled for tomorrow morning.

A novel feature of the parade promises to be the participation of N. B. Forrest Camp, United Confederate Veterans. This unexpected innovation resulted from a special invitation extended to the camp today by Commander-in-Chief Alfred B. Beers, of the G. A. R., and accepted by Colonel L. T. Dickinson, of the Forest Camp. The Confederate veterans were invited to wear their grey uniforms.

A resolution was adopted favoring the erection in this city of a peace movement. A similar resolution was adopted three months ago by the United Confederate Veterans at their reunion here.

NEWBERN'S FIRST COTTON.

Farmer Sells Nine Bales at 12 1-4 Cents—Crop Delayed.

(Special Star Correspondence.)

Newbern, N. C., Sept. 16.—The first new cotton of the season reached Newbern Monday when A. B. Dawson, of Jasper, one of Craven county's most progressive farmers, brought nine bales of the fleecy staple to market and disposed of it to G. W. Taylor & Son at a price averaging 12 1-4.

Local cotton merchants had expected the first bale to be brought in more than a week ago and this would have doubtless been done but for the storm of the first of the month. This not only delayed the cotton pickers but at a number of points the ginneries were blown down and this further assisted in hindering the growers from getting their cotton to market. Reports received here by the dealers from their correspondents in this and adjoining counties are to the effect that picking and ginning is in progress and that within a week or two a number of bales will be brought in for sale each day.

New Autumn Suits

It would be a dreary old world, if all the people wore the same sort of clothes all the year 'round. The new clothes of each season are a world-tonic, and it is a natural impulse, and not an idle whim, for people to desire a change of dress, apart altogether from the demands of change of atmospheric conditions.

Also—and this is very important—it keeps the wheels turning and the wolf at a respectful distance from millions of doors.

The new Fall Suits are ready for your approval. We would ask that you give us the or two of clear, bright, cool weather to set a woman thinking of Autumn Clothes Needs. two of clear, bright, cool weather to set a woman thinking of Autumn Clothes Needs.

You can always find the Newest at this store.

We are showing some plain Serges and few novel ties at ..... $12.50 and $15.00

The Novelty Suits in Broadcloth and Wool Eponges and Ottoman clothes and good mixtures, wonderfully rich and beautiful at $19.50, $22.50, $25.00 and $30.00

THE NEW FALL SUITS FOR MEN

And they are as good as gold—that is to say, as good as the gold of sincere purpose, expert knowledge and unwavering determination to excel can make them, with the all wool guarantee, suits at $15, $18, $20 and $25.00

Just Received, shipments of the Newest Style White Hats, the assortment varied and shapes to suit every type of face.

Children's and Misses' School Dresses, 6 to 14, splendid values, only 98c

J. H. Rehder & Co.

E. C. REGISTER, Manager.

WILLIAM FOY GOES TO ROADS

Aggregate of Nine Months on Three Counts for Selling Whiskey—Willie Mack, Colored, Given Nine Months.

William Foy, colored, who was tried last week before the Recorder, on two charges of selling whiskey, was again in court yesterday, and this time he was given an aggregate sentence of nine months on the county roads.

"Honey" Gause, a young negro girl, who worked in Foy's place on Taylor street, was sent to the county farm for three months.

Willie Mack, colored, charged with assaulting George Williams, colored, by shooting him with a pistol, and also with carrying concealed weapons, was given nine months also for the two offenses. He appealed and his bond was fixed at $150.

Ephraim White, colored, testified in the case against Foy that he and a negro named Jim purchased from "Honey" Gause, who was working in Foy's store, a pint of whiskey for which they paid 80 cents. The girl did not deny selling them the whiskey, but stated that she got it from another man, and that Foy was not there. Foy also said in court that he was away, and that he did not know about the sale. The evidence was rather confusing, and there were many contradictions. White was able, however, to prove a good character by several witnesses.

The Recorder had previously fined Foy $100 and the costs in one case and judgment was suspended in the other upon the payment of the costs. He ordered that the fine of $100 be remitted in the first case and a sentence of three months on the roads be made instead. He was let off with the costs in the second charge, and given six months on the last charge. The Foy case came up from Justice Harriss' court.

Willie Mack, colored, through his attorney, W. F. Jones, Esq., entered a submission to carrying concealed weapons, and also to having shot Geo. Williams, colored, last week. The Recorder ordered a fine of $50 and the costs in the first case and 12 months on the roads with privilege to hire out in the second case. The defendant stated that he was unable to pay the fine, and the trial was then taken up in regular order.

Only one witness was examined this being George Williams whom he shot. Williams said that he was walking along the street and met Mack, who was with a colored woman, named Mary Bishop. He stopped him and as a result of some words which they had Mack drew his pistol and shot four times. Only one of the bullets took effect, however, this causing a flesh wound.

The Recorder ordered that he be sent to the roads for six months on the charge of assault with a deadly weapon, and three months on the charge of carrying concealed weapons. An appeal to Superior Court was taken and his bond was fixed at $150.

Dan Allen, colored, charged with getting money under false pretenses from one George Van Loon, was discharged as Van Loon failed to appear, and the officers had been unable to locate him. Van Loon charged that Allen got $1.50 under the promise of getting a quart of whiskey, which, however, he failed to deliver. Al Dixon, colored, wasn't guilty of selling any whiskey, and was also discharged. Owen McCullough, colored, was taxed with the costs for being drunk and disorderly, and appealed to Superior Court.

Robert Pettett, one of Uncle Sam's sailor boys, got drunk Tuesday night, which he didn't deny, and was taxed with the costs. He was also charged with giving cigarettes to minors, but it wasn't a clear case, and he was acquitted of this charge.

The trial of Bonny Lear and Joe Mason, both white, charged with forming a conspiracy to escape from the county chain gang, was fixed for Thursday. The alleged attempt to escape was during the first week in August. Cases against Mr. Austin McCormick and H. J. McMillan, charged with violating the city tax ordinance, were continued.

A NUISANCE UNABATED.

Tenants of Lower Market Complain of Open Sewer and Rains.

Tenants of the section at the west end of the city market are loud in their condemnation of the health department for its apparent wanton neglect for more than a week of a broken or open sewer which has been pouring its filth into the street there with no abatement of the nuisance in spite of repeated protests. Yesterday when the rains came the sewer again began emptying more copiously and the contents ran all the way, it is said, on Water, between Dock and Orange streets. Complainants were told at the health department that the sewer is a private one, but they very properly maintain that the private ownership is no excuse for allowing the stench and consequent danger to health to remain. The health department promises relief, but none has come yet, they say. Both the Council and health department were appealed to yesterday and it is likely that the matter will receive attention at the meeting of the city authorities today.

Real Estate Transfers.

Deeds were filed for record yesterday as follows: Henry Williams and wife to Lorenzo Kennedy and wife, for $100 and other considerations, lot on west side Eighth street, 66 feet south of Hanover, 33x82 1-2 feet in size; Duncan McEachern and wife to John S. McEachern, for $1 and other considerations, lot in Harnett township, on old Wilmington-Topsail road, 105x1043 feet in size; Virgil Small and Mary A. Mollett, of Brunswick county to Mollie Gardner, of Pender county, for $5 and other considerations, lot on east side MacRae street, 90 feet south of Nixon, 30x75 feet in size; Mollie and Marshall Gardner, same lot to Chas. Wessell and wife, for $100 and other considerations.

Burial of Young Son.

Mr. and Mrs. E. Porter, of Monroe, arrived yesterday on the 12:30 train from Monroe with the body of their five-months-old son, Robert Lee, whose death occurred at their home Monday. The interment was made in Bellevue cemetery, the funeral having been previously held at their home. Mr. and Mrs. Porter returned to Monroe on the afternoon train. They formerly resided in Wilmington and have a host of friends in the city, who sympathize tenderly with them in their grief.

Drum Fish Plentiful.

The anglers are having great sport at the Seashore Hotel pier these days and nights, and Monday night ten large drum were caught. The largest weighing 32 pounds was brought in by Mr. E. D. Orr early yesterday morning. Blue fish and other species are also being caught in abundance.

REDUCTION IN EXPRESS RATES

New Tariff Goes Into Effect October 15th Unless Held Up by Court—Cut on Packages to Local Points.

In common with all other points throughout the United States Wilmington will benefit by the sweeping reductions in express rates that have been prescribed by the Inter-State Commerce Commission and which become effective on October 15th. Of course the date of the operation of the new ruling might be delayed by the Commission giving the express companies more time for their preparation, or express companies resisting the Commission's order, which, however, is not believed likely.

Also of interest and benefit to the public are the new rules and regulations promulgated by the Commission in a recent decision on the subject of express rates and practices. It was following complaint of several commercial organizations that the Commission took action.

Among the new rules and regulations simplifying the transaction of express business are given the following:

The adoption of the block system of stating rates.

The establishment of a uniform classification of simple character.

The publication of a joint directory of express stations, fixing the location of every such station by block number.

The publication jointly of the pick-up and delivery limits at every station.

The adoption of a new form of express receipt, the terms of which are clear, specific and reasonable.

The adoption of a rule fixing second-class rates to apply on articles of food or drink (except where otherwise specified in the classification and ruled) at 75 per cent. of the first-class rate with certain additional provisions not possible of extended mention.

The adoption of a rule for aggregating weights on two or more packages forwarded by one shipper at the same time, upon one receipt to one consignee at one local address, fixing the application of the rate upon the actual weight of each such article when above twenty pounds. This is in reality a rate reduction in weight, on which the reduced rates in the table apply, the two constituting a double reduction.

The adoption of rules providing for valuation charges, C. O. D. shipments, returned shipments, prompt settlement of claims and prompt dispensation of undelivered and refused shipments.

The material reductions in rates have been made on packages weighing 50 pounds and under. This constitutes the bulk of the express traffic and under the rule governing aggregated weights mentioned above, afford the relief most needed by shippers. The Commission has so simplified the express traffic that any person of ordinary intelligence can understand them, and can ascertain the rate between Wilmington and any other place.

While the parcel post business has been growing in Wilmington at a most rapid rate during the past few months, especially the last few weeks, it does not seem to have affected the business of the Southern Express Company, which apparently is doing as much as ever. With the new and lower rates in effect the express business in Wilmington will doubtless increase correspondingly.

SMOKER AT W. L. I. ARMORY

Division Known as Whites in Membership to Entertain in Honor of the Blues—Letter of Praise.

Members of the Wilmington Light Infantry, officially known as the Second Company of the Coast Artillery Corps, North Carolina National Guard, are looking forward with a great deal of pleasure to an informal banquet which will be held at the armory tomorrow night.

The division known as the Whites in the recent membership contest will do the honors of the occasion and will have as their guests the division known as the Blues, the latter division having succeeded in getting the largest number of new members of the company during the period of the contest.

As a result of the contest the membership of the company was brought up to 85. Permission was recently granted by the United States War Department to recruit up to 105 and it is expected that this number will be reached in a short time.

The banquet Thursday night takes the place of the regular annual banquet that is given about this time of year by the members of the company. They are always highly enjoyable affairs and this one promises to be especially so. The Whites were in charge of Lieutenant Lynch, while Lieutenant Cantwell was in charge of the Blues. There will be a number of speeches at the banquet by members of the company and also by regulars from Fort Caswell, who have been invited as special guests.

Capt. E. A. Metts, commander of the W. L. I., recently received from Capt. A. Greig, Jr., Inspector General, Coast Artillery Corps, U. S. A., Fort Caswell, a letter containing the following:

"1. I desire to congratulate you and your men on the excellent results attained in service practice at the 8-inch battery at Fort Caswell, N. C., on the 13th of August.

"2. It is something to talk about getting three hits out of three shots at a moving target, 30x60 feet, being towed on a line not normal to the line of fire, and I hope you do it again. Many good companies miss getting hits by a few feet due to causes over which the personnel have no control and it is no disgrace to fail of getting hits under such circumstances.

"3. Hits are what we want in time of war and the fact that you have attained this record is a proof that your company can be depended on if the necessity ever arises."

Wilmington Firm Gets Contract.

The Builders' Supply Company, of this city, have been awarded the contract for the improvements on the marble work on the postoffice lobby. This work will begin at once. The awarding of the contract for the other improvements in the interior of the office will be made as soon as the report on the bids submitted are received from the Postoffice Department at Washington.

MAY HAVE BOYS' CORN SHOW

Movement on Foot to Have Corn Exhibit Here First Week in December—List of Prizes to be Awarded.

If the present plans of those interested in the boys' corn growing contests are carried out there will be a corn show held here the first week in December at which time there will be an exhibition of specimens of the corn grown in New Hanover county. The prizes will also be awarded at this time, whether there is a contest or not. Among those who are working to make arrangements for the exhibit are Messrs. George H. Hutaff, L. B. Sasser and J. P. Herring. While they have as yet made no definite plans they expect to do so within the next day or so.

Mr. J. P. Herring, county farm demonstrator, stated last night that there were 22 boys who had complied with all the requirements of the boys' club contests, and would compete for prizes. There are also a number of men who entered the contest for this county as the county prizes are open to both men and boys. Mr. Herring said that he thought that several would make over a hundred bushels to the acre while the average for the contestants would be in the neighborhood of 75 bushels per acre.

The list of prizes open to the boys is a long one, and New Hanover boys are particularly fortunate in being able to compete for a large number of prizes offered by local business men. The State Department of Agriculture offers a free trip to Washington to the boy from the State who makes the largest yield per acre. There are also prizes for the largest yields in the State of $50, $30 and $20 offered by the Hasdings Seed Co., of Atlanta, Ga.

The State department also offers a number of prizes for the largest yields in each Congressional district. For the Sixth District composed of New Hanover, Brunswick, Columbus, Bladen, Sampson, Robeson, Cumberland and Hoke counties, there are five prizes of the amounts of $15, $12.50, $10, $5 and $2.50 respectively.

The prizes offered by local business men for corn yields in New Hanover are divided into two classes, first for trucking land and secondly for land that has not been used for trucking purposes within the last four years. The prizes for improved trucking lands are of the following amounts: $50, $40, $35, $30, $25, $20 and 50 fruit trees. For unimproved non-trucking lands the prizes are of the following amounts: $25, $20, 50 fruit trees, three sacks of guano and two sacks of guano.

The list of donors for local prizes are Mission Pharmacy through Mr. L. B. Sasser, $100; Coca-Cola Bottling Works, through Mr. George H. Hutaff, $100; The D. L. Gore Co., $45; Mr. Chas. N. Evans, $15; Mr. W. B. Cooper, one ton of guano; Mr. W. H. Howe, 100 fruit trees.

It is proposed to charge 10 cents admission to the Corn Exhibit, if it is held, which will provide an additional fund which can be used for prizes to be given for the best specimens of corn exhibited. It is also planned to give the boys an outing or a dinner and thus bring about a feeling of fellowship among them which it is believed will aid very materially in creating greater interest in the contests.

THE WEATHER ONCE AGAIN.

No Records Broken by Yesterday Afternoon's Downpour, But—

For days the weather man had said that it was going to happen, and people had been looking for it, but nevertheless, they weren't quite ready when yesterday afternoon at 3 o'clock sharp the heavens opened wide their doors, and the flood began to descend. It fell so fast and came so steadily that within half an hour the streets were well nigh past navigating.

Those who had to brave the elements did so with as brave a heart as possible, but it was no pleasure. For two hours it was disagreeable, very much so. Some had gone away to spend a day of pleasure, thinking that surely since there had been no rain for three whole days when the elements looked threatening, that there would be one more day of grace. They got wet but were happy in the knowledge that it wouldn't last always.

The weather man said that the amount of rainfall was one-third of an inch, which doesn't convey a vivid concept to the lay mind. Suffice it to say that he thought that it was a pretty decent rain for one afternoon, especially in two hours and with no storm. O yes, it could have been worse, much worse, but it was bad enough, and it is hoped by the time you, gentle reader, see this, that the sun will be shining brightly, and you will have forgot that it was so wet, damp and disagreeable.

WORK ON FILTERS DELAYED.

Work of Preparing Sand Was Interfered With by Recent Storm.

On account of the recent storm in Eastern North Carolina and Virginia a delay with the firm which has the contract for furnishing the sand for refilling the filters at the waterworks plant at Hilton Park, has been encountered which will necessitate a longer time for completing the improvements than had been expected. Dr. Chas. T. Nesbitt, superintendent of health, and Mr. George F. Catlett, the chemist, stated yesterday that good progress was being made with the work, all the scaffolding having been placed and it being only necessary to get the sand in order to proceed with the work.

Dr. Nesbitt said that on account of the increased amount of water being used that the filters were being badly strained. The rapid extension of the sewerage service has occasioned a considerable increase in the amount of water used. He stated that all water used for domestic purposes should be boiled, and that due notice would be given the people as to when they can discontinue boiling the water.

FUNERAL OF MR. SMITH.

Services from Residence at Middle Sound Yesterday Afternoon.

The funeral of Mr. George R. Smith, whose death occurred Sunday night at his home at Middle Sound, was held yesterday afternoon at 1 o'clock from the residence, conducted by Rev. J. P. King, pastor of Sixth Street Christian Advent church. The services were attended by a large number of friends of the deceased, many going from this city. The interment was at the Burnett Grove burying ground, and was with the honors of the Red Men of which Mr. Smith was a member. The pall-bearers were Messrs. Calvin C. Reaves, J. L. Croome, G. F. Waters, T. B. Jackson, James Petit, and D. D. Benton.

BOYS' BRIGADE WINTER WORK

Activities of This Well Known Organization Will be Resumed First of October—Plans Outlined.

Enthusiastic interest is being exhibited by members of the Boys' Brigade in the work of the Winter season, which will be formally inaugurated next month. The armory has been thoroughly repaired from cellar to roof and it is in an ideal state for the prosecution of the work for which it exists. The gymnasium classes will be opened on Wednesday night, October 1st for young men and the Juniors will hold their first class on Friday, October 3rd.

There will be classes on Wednesday and Saturday nights for young men and on Tuesday and Friday afternoons for boys with a class for business men at noon every day. There will be three basketball leagues, one for boys, one for class B teams and one for class A teams. The boys will play after their class meetings, class B league will play Tuesday nights, and class A league will play Friday nights.

Basketball Leagues.

The teams in the Friday Night League will stand as composed last season with a few new players added to fill the places made vacant by the departure of some of the members to school, among whom are Bob and Chas. Burnett, who are at the University of North Carolina, and others will be added to strengthen some of the weaker teams, these being recruits from the minor league and from Company C, several of whom will be promoted to Company B this season.

Company B team will line up as it has for two seasons, when it won the city championship by its brilliant work. Irving's team will be the same with the addition of a young recruit from Company C, Marvin Register, who can now give points to many older players and who is destined to become a real star. Company A will add two members in the places of Hanson and Duls. These will probably be Cameron and possibly Burriss or Snakenburg, both of whom are being considered for the place. The Eagles will be greatly strengthened and put upon a footing to compete successfully with any other team in the league. It has not been fully decided yet who will compose this team.

The Tuesday Night League will be completely re-organized as there will be several players from this league missing this season. It has been decided to place a team composed of Company C players, who have been promoted to Company B, in this league. These have been playing together for two seasons and as they play fast ball they will be able to give a good account of themselves. The team is now composed of Marvin Register, Iva Palmgren, W. Montgomery, H. Fergus, R. Snakenburg and A. Beach. The Junior League will also be re-organized to meet the new conditions which arise as a result of the promotion of ten of the oldest boys in Company C to Company B.

Gymnasium Closes.

The gymnasium classes on Wednesday and Saturday nights will be conducted by a group of four members under the personal supervision of Mr. Dushan. These are Harry Register, S. Branch, R. Snakenburg and E. J. Irving. All of these are good gymnasts and they expect to put new life and enthusiasm into this feature this Winter. Mr. J. U. King will have charge of the Tuesday Night Basketball League and will also act as referee.

The Bible Class which has been conducted by Rev. Dr. J. M. Wells for three years with such good results and large attendance, will be conducted again this year by the same teacher. Dr. Wells has made the Bible a new book to many who have heard him and his popularity with the members of the Boys' Brigade is due largely to his work among them during the past several years. The first meeting of this class will be held on Monday night, October 6th.

The regular business meeting will be held on this same date, which will mark the resumption of the Fall and Winter work when all schedules of other seasons will be resumed. New members will be taken in at this meeting as there are several who have been waiting all Summer to get in but could not, due to the fact that the Brigade does not take in members during the Summer season.

The social work will be emphasized this Winter. This will be resumed on October 9th, when the regular opening reception to the public will be held. This feature is in charge of Mr. B. F. Brittain, Jr., and a committee of enthusiastic members and they promise that this will be a splendid affair. After this there will be social affairs of different kinds during the Winter months.

Educational Lectures.

Educational lectures and talks, which proved so helpful and instructive last Winter will be given again this season. Some of the most prominent men in the city in educational and other professions and business callings will be heard at the Brigade upon subjects pertinent to the times and conditions under which we are living. These talks and the stimulus which has resulted in educational ambitions has resulted in many of the members of this little organization being either graduates of the best educational institutions and colleges in the State or present students at these institutions. Among these may be mentioned several who are at the University, Davidson College, A. & M. and other schools of note. Among the graduates may be mentioned several well known professional and business men in the city and others who are occupying important positions in various callings. Several others are now preparing to enter college in the near future.

Fourth Lyceum Course.

This will be the fourth season of the Lyceum Course, which is being conducted by this organization and it has grown in popularity and satisfaction each year as shown by the steady growth in the number of season tickets sold. The first year 280 were sold, while this season 450 were disposed of. This sale made it necessary to add 50 seats to the capacity of the hall and has enabled the committee to add to the expense of the attractions and this season they have added one extra attraction, making a total of seven instead of six as heretofore presented. It is confidently expected that the course this season will eclipse anything of the kind ever offered by this institution. It will be gratifying to the patrons of this course to learn that an iron stairway has been erected at the rear of the armory costing several hundred dollars, which will enable those entering and leaving the hall to do so with all ease and speed. It is six feet wide and without curves. This will give three exits from the auditorium, which makes this one of the safest halls in the city. It can be emptied easily in less than five minutes.

Company C will meet on the afternoon of October 2nd, at which time there will be an election of officers, both civil and military, besides the transaction of other important business. The season of 1913-1914 will then be in full swing and the Boys' Brigade armory will be one of the busiest places in the city.

PLANS OF CHEMIST DUBOIS.

Declares River Water Can be Made Pure and Fertilizer Saved.

Apropos of the discussion of the water supply and the proposition to change from the Cape Fear river to a system of deep wells, Mr. A. N. Dubois, analytical chemist, declares that the river holds in solution very valuable properties which can be extracted at a profit. He says that he has made extensive tests and analyses of the river water and finds it particularly rich in potash and other valuable materials, all of which possess good fertilizing property.

The quantity of organic matter held in suspension is about one ton of dry material to every million gallons of water as it is at the intake at the city filtering plant; but the water a little above the cotton mill contains a little more organic matter, more potash, free ammonia and albuminoid, also much more nitrites and nitrates, both of which are the source of nitrogen which is so very valuable in all fertilizers; and Mr. Dubois asserts that there is more potash in the Cape Fear than can be used by all the fertilizer plants in Wilmington, if it were extracted, which, says the chemist, can be done.

He declares that it is feasible to erect a big extracting plant and operate it at a profit, but says that it would be better to have such a plant in connection with the city water supply, so that there would be two sources of revenue—fertilizer materials and pure drinking water. Mr. Dubois says that there would be more water than the city would need, that it would be purer and cheaper than now.

Water treated as he suggests, he says, would be alum free and freer from bacteria than it is now. At present, he says, the water is always more or less contaminated with alum, for the month of August the proportion being from one to eleven parts alum per million parts water, which he declares is very unhealthy and against the sanitary rules of the North Carolina Board of Health. Even a trace of the water, says Mr. Dubois, is not desirable, and to him it seems that the method used at the filtering plant is not a good one for the separation of the chemicals used to coagulate the organic matters but also the color is not good.

Mr. Dubois further says that the addition of more sand in the filters might give clearer water insofar as the color goes, but that it will not filter out the aluminum sulphate used that gives the alum found in the water that passes through the mains; and this free alum, he says, is not only bad for health, but also is very bad for boilers, water closets, tanks and automobiles and water coolers, which it soon ruins through the sulphuric acid of the alum in the water.

Mr. Dubois has proposed to the city to sell his method of purifying the water, and in this connection declares that the deep well project in this section of the country cannot be successful and that the $5,000 to be used to experiment with a deep well had better be spent in putting the filtering plant in shape to use his method to get pure water, alum free, and save the city from $6,000 to $7,000 annually for the chemicals bought to purify the water, because by his method, he says, the extracted organic materials from the water will more than pay the cost of the chemicals used.

Fertilizer materials, he points out, are extracted from the air as nitrogen and can be extracted from rivers and creeks likewise, containing organic materials. Such methods also apply to sewage water, and Mr. Dubois estimates that 90,000 pounds per day could be saved if the sewage were collected at one point outside the city and its fertilizer materials extracted, to say nothing of the improvement in general health conditions.

Mr. Dubois says that he will make a demonstration to anybody who is interested. All one has to do is to take the crude river water to his laboratory and in a few moments, he says, he will show results.

PARTY VISITS WOGLINDE.

Wilmington Gentlemen Have Pleasant Outing Up the Cape Fear.

A party of Wilmington business and professional men accepted the invitation of Capt. Schuder, of the German steamship, now discharging her cargo at Navassa, extended to them through Mr. B. P. Strickland, superintendent of the fertilizer plant, to visit the ship Monday afternoon. They inspected the big ship, the largest ever to make its way up the river to that point, from bow to beam, and found everything in perfect order and clean as a pin.

The officers and crew extended them every courtesy, and showed themselves to be most hospitable hosts. Refreshments were served on the main upper deck. Short talks were made in both English and German, and every member of the party had a most pleasant and enjoyable time. Capt. Schuder is to be congratulated upon having charge of such a splendid ship, and so efficient and gentlemanly a crew. His kindness and many courtesies will long be remembered by the party.

The members of the party who enjoyed his splendid hospitality were Rev. F. B. Clausen, pastor of St. Paul's Lutheran church; Rev. Father Dennen, priest in charge of St. Mary's Pro-Cathedral; Dr. Chas. Harper, Dr. Thos. Carroll and Messrs. B. P. Strickland, H. E. Longley, H. A. Webber, E. J. Bush, Martin Rathjen, T. King, J. H. Niggel and Will Rehder.

—The burning of a tar box at foot of Nun street yesterday shortly after 12 o'clock produced a great deal of smoke, and was responsible for calling out the fire department, but no damage was done.

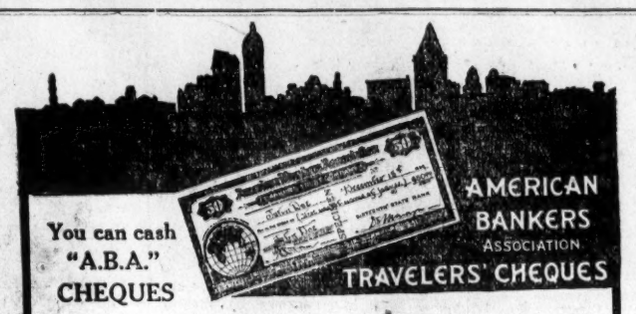
—City Council will hold its regular weekly meeting at 10 o'clock this morning, the hour of meeting having been changed from 9:15.

The Prudent Man

Seeks a safe bank. The officers and directors of this bank seek strength rather than mere show. THIS is a bank for Prudent Men and Women, known far and wide as a "Solid Institution." We invite you to deposit your savings here.

OLD AND STRONG.

THE PEOPLES SAVINGS BANK



You can cash "A.B.A." CHEQUES in every city of the United States, as well as in all foreign countries. 50,000 bankers throughout the world have agreed to cash them at their face value. Hotels everywhere are glad to accept them from guests. Full particulars on request.

THE WILMINGTON SAVINGS AND TRUST COMPANY

ODOR-O-NO

—is *necessary* in fall and winter to every dainty woman—to every woman whose clothes are being ruined by perspiration stains—to every woman who suffers from excessive perspiration and the embarrassment it causes.

At reception, dance or theatre,

ODOR-O-NO

THE ANTI-DRESS SHIELD TOILET WATER

Keeps the armpits fresh, dry and natural. Prevents *excessive* perspiration and its odor. Easily applied.

Absolutely harmless and guaranteed

Buy a bottle today—and Throw your dress shields away

25c and 50c at department stores and drug stores. If your dealer hasn't it—send his name and 25c and we will parcel post you a full size bottle.

SOCIAL & PERSONAL

Miss Kate Clemmons left yesterday for Raleigh, to enter St. Mary's School.

* * *

Miss Agnes Borkenhagen is spending a few days with friends at Watha.

* * *

Mr. A. B. McNair has returned to the city from Hartsville, S. C., where he spent his vacation.

* * *

Miss Pauline Williams left yesterday for Greensboro, to enter the State Normal College.

* * *

Mrs. H. B. Walters and Mrs. C. A. Walters, of Washington, N. C., are guests of their aunt, Miss Julia Yopp, No. 813 Chesnut street.

* * *

Mr. and Mrs. W. R. Moore, of Guilford College, are visiting their sons, Messrs. L. W. and A. K. Moore, No. 404 South Fifth street.

* * *

Mrs. A. P. McClammy and daughter, Mrs. J. R. Kennedy, and son, Master Charles Kennedy, returned yesterday from a pleasant visit of several weeks to New York City.

* * *

W. P. Mangum Turner, Esq., and Mrs. Turner and two children returned Monday night from Healing Springs, Davidson county, Greensboro and other points in the Piedmont section, where they spent several weeks.

* * *

Many friends in Wilmington of Mrs. Frank Pearson, of Atlanta, and a great many others who have enjoyed her singing at Lumina, Wrightsville Beach, but do not have the pleasure of knowing her personally, will be interested in the following from yesterday's Atlanta Georgian: "Mrs. Frank Pearson, the best known singer in Atlanta, will sing this evening at the banquet to be given in the Ansley Hotel, in honor of Mr. Fred E. Farnsworth. Later in the evening Mrs. Pearson will entertain the guests of the hotel with her wonderful voice. Sunday night Mrs. Pearson drew a very large audience and sang beautifully at the Ansley Hotel. Her selections were excellent. Her voice was clear, strong and melodious. She was loudly applauded."

PERSONAL PARAGRAPHS.

—Mr. N. Mosely, of Loris, S. C., was a business visitor in the city yesterday.

—Irving B. Tucker, Esq., of Whiteville, was in the city yesterday on professional business.

—Mr. W. J. Clemmons will leave this morning for Richmond, Va., to start out on his Winter trip for Stern & Co., of that city, with a Spring line of shoes.

LOCAL DOTS.

—Suit was instituted in Superior Court yesterday by L. L. Hanby, Mrs. Florence H. Foard and husband, C. D. Foard, against A. J. Hanby, John R. Hanby, American National Bank and Mr. and Mrs. J. W. Helbig. The complaint was not filed.

—An automobile truck belonging to Dosher Bros., collided with a bicycle ridden by a negro youth at corner of Third and Princess streets yesterday afternoon about 4:30 o'clock. The boy was bruised about the hands and badly shaken up while his wheel was demolished.

—Gladys Utley, colored, who was arrested last week, charged with stealing two silver spoons from the residence of H. B. Wilson, was tried yesterday by Justice Harriss. Probable cause was found and in default of bond in the sum of $50 was committed to jail to await a hearing before the Recorder this morning.

NEW SECRETARY B. & L.

Directors of Progressive Association Name Mr. B. F. King, Jr.

Finding that his duties as a member of the firm of the New Hanover Transit Company were demanding more and more of his time because of increased real estate activity at Carolina Beach, which the company owns, Mr. J. J. Loughlin yesterday tendered his resignation as secretary of the Progressive Building & Loan Association, and the directors thereupon elected Mr. B. F. King, Jr., to succeed him. The office of the association, therefore, will be changed from the Pate offices, where Mr. Loughlin has had it, to No. 202 Princess street, occupied by King & Seigler, real estate and insurance. The Progressive B. & L. will be two years old in February. The president is Mr. J. M. Solky and Maj. W. N. Harriss is vice president. A new series of stock will be opened by Secretary King at 202 Princess street, on the first Saturday in October.

Negro Charged With Seduction.

Luther Ward, colored, was arrested yesterday by Deputy Sheriff Reynolds on a warrant charging him with seduction of Catherine Harris, under promise of marriage. He had a hearing yesterday afternoon before Justice Harriss, who found probable cause and sent the case to Superior Court. In default of $250 bond he was committed to jail. Ward is a brick mason and lives on Castle street. The woman lives at Myrtle Grove Sound. The warrant was sworn out by her mother.

PROBE ENDS FRIDAY.

House Investigating Committee Concludes Mulhall Hearing.

Washington, Sept. 16.—With but one more witness to be heard, the House lobby committee tonight decided to conclude Friday its inquiry into charges made by Martin M. Mulhall against former and present members of Congress.

Former Representative Charles Littlefield, of Maine, will appear before the committee Friday to reply to the charge made by Mulhall that he received financial assistance from the National Association of Manufacturers in his campaign for election to Congress in 1906.

The committee tonight heard Jas. A. Emery, chief counsel for the National Association of Manufacturers, who arraigned Mulhall and the newspaper which first published his charges.

After hearing Mr. Littlefield the committee will suspend hearings and prepare a report to the House, which will dispose of the charges.

"WHITE SLAVER" SHOT.

Man Charged Violating Mann Act Probably Fatally Wounded.

Bristol, Tenn., Sept. 16.—Arriving at the Union station here tonight from Greenville, Tenn., where he had been on trial for alleged violation of the Mann white slave act, John Burnett, in charge of an officer, was shot through the breast just above the heart by Roy Oakes, who alleged that Burnett had been too intimate with his wife. Burnett's condition is critical. Oakes was arrested and placed in jail. Both men are of this city.

..Theatrical..

"The Confession" was presented to a scattering audience at the Academy of Music last night. The main point stressed in the play is the sanctity with which the Roman Catholic regards the priestly relation with the parishioner. The cast was a capable one and all the parts were well handled, especially that of the priest, Rev. J. J. Bartlett, taken by Mr. Richard Sterling; his mother, Mrs. Mary Bartlett, taken by Miss Margaret Desmond; attorney, C. H. Blackburn, taken by Mr. Frank Campbell, and the French Canadian, Josef Dumont, who confesses to the priest, taken by Mr. Bowd M. Turner.

Brilliant Savage Music Show.

Now comes the opening of the Academy of Music's musical comedy season, and really what is considered by the Academy management the real opening of the season. It will be the appearance Saturday matinee and night, of Henry W. Savage's own big New York company, including orchestra, in the great Broadway music show, "Little Boy Blue." The name of Savage alone guarantees it, as Wilmington theatre-goers well know, because his other superb attractions are well remembered here. Seats for both performances will go on sale at Plummer's tomorrow (Thursday) morning. The scale for the night will extend from 25 cents to $2, with box seats only $2.50, while the matinee scale goes from 25 cents to $1.50.

"Little Boy Blue" after sensational engagements in Vienna, Paris, Berlin and other European capitals, was produced in New York by Henry W. Savage and remained on Broadway for an entire season. Following its long run in New York "Little Boy Blue" visited Boston, Philadelphia, Chicago and several other of the larger cities of the East, scoring in each place a success proportionate to that registered in the Metropolis. Everyone who follows the news of things theatrical must by this time be aware of, if only by hearsay, its unusual merits as entertainment, and as a result, its visit to Wilmington will unquestionably be an event of real importance. "Little Boy Blue" comes to this city with its original New York production, a majority of the creators of the principal roles, Otis Harlan in his most successful comedy characterization, Dupont, the detective, and a chorus that for singing and dancing capability combined with good looks is really extraordinary.

"Alkali Ike" at Grand.

Lead in great fashion by a special two-reel release film, Essanay's "Alkali Ike's Gal," the funniest photoplay ever manufactured, the Grand Theatre will today offer a bill of rare charm, and one that will cater to every taste. In "Alkali Ike's Gal" will be found a rip-snorter for laughs. It tells of how matrimonial agency inveigles "Ike" and his chums into the game and what happens. The fun starts, in fast and furious manner, at the very beginning, when "Ike" in trying to sew a patch on his Sunday duds, sews the pants to the quilt and has to respond to a hasty call with the quilt wrapped around him. It is one of the merriest of all stories and is the very latest special release film. Lubin's stirring dramatic, "On the Right Road," is also a feature film today, which will be greatly enjoyed. Of course, the same old Grand price, 5 cents, afternoon and night, holds forth.

Bright and Comfy Bijou.

While all outside was drear and damp yesterday, all inside the popular Bijou was bright and comfortable. It is ever so. This swell theatre, modern in every way, adapts itself unfailingly to the character of the weather. Today's bill will be another great one and just such as every one will relish. It will be headed by an especially strong photoplay in Selig's "The Price of the Free," which tells of a gay party of rich young bloods, who, while out automobiling, find a tramp. They make merry at the expense of the hobo, until he tells them his story. It is a splendidly conceived and admirably acted film. Pathe's "The Friendless Indian" is also on, depicting an old Indian who is an outcast from his tribe, and his daring adventure in rescuing the child of a white man. Yet another big dramatic on today is "The Flying Swith," Kalem's great story of the rails and in which will be seen Helen Holmes, C. E. Edrington and G. A. Williams.

DIGGS ACQUITTED.

Not Guilty of Perjury But Will be Sentenced on Graver Charge.

San Francisco, Sept. 16.—Maury I. Diggs, formerly State architect, and Attorney Charles B. Harris, of Sacramento, were found not guilty by a jury in the United States District Court today of subornation of perjury in connection with the Diggs-Caminetti white slave cases. The jury was out an hour and thirty minutes. None of its members would discuss the verdict.

Today's acquittal closes the series of cases resulting from the elopment from Sacramento, Cal., to Reno, Nev., of Maury I. Diggs, F. Drew Caminetti, Marsha Warrington and Ola Norris, with the resultant arrest of Diggs and Caminetti and their conviction of the violation of the Mann white slave act.

Diggs and Caminetti will be sentenced tomorrow by Judge Van Fleet for their violation of the Mann act. Motions for new trials will be made, and in the event of denials by the court, appeals will be taken.

BRYAN'S PLAN APPROVED.

Secretary's Scheme to Promote Peace Discussed at The Hague.

Washington, Sept. 16.—Secretary Bryan's peace plan for the settlement of international difficulties through good offices of an impartial commission, was received with acclaim at the recent meeting of the inter-parliamentary union at The Hague, according to Senator Burton, one of the American delegates who returned here today.

"The Bryan plan," said the Senator, "was received better than almost anything that was talked over. The only objection to the proposal seemed to be that during the period provided for an investigation of grievances by a commission, the countries involved shall make no additions to the war equipment. Several nations did not seem to like that provision, but it is not a vital part of the plan."

The Bryan plan was only talked about at The Hague. Its adoption depends upon the countries of the world invited to enter into it by the secretary.

Rockland, Maine, Sept. 16.—The Argentine super-dreadnaught Rivadevia today fulfilled her contract requirements by averaging 22.50 knots an hour during nine runs of the measured mile course of Rockland. This competed the standardization trials The other official acceptance trials will be held this week, the next one being an endurance test of 30 hours during which the ship must maintain an average speed of 20 knots.

Pretty Victim of Brutal Murder.

Ann Aumuller, the handsome German girl who was formerly a servant in the rectory of St. Joseph's Catholic church, New York, and with whom Rev. Hans Schmidt, assistant pastor of the church, became infatuated and whom he married, he himself performing the ceremony, without witnesses; and whom he has confessed he murdered and cut to pieces, later throwing the mutilated parts of her torso into the Hudson river. Schmidt is a Bavarian and came to America several years ago. Ann Aumuller was also a German and had been in this country two and a half years.

NANCE HOPELESSLY INSANE

Dr. Taylor, of Morganton, Says Wife Murderer Is Crazy.

(Special Star Correspondence.)

Rockingham, N. C., Sept. 16.—"Hopelessly insane," is the conclusion arrived at by Dr. Isaac M. Taylor, the insanity specialist, of Morganton, in regard to George S. Nance, who remains confined in the county jail here, awaiting trial on the charge of having brutally murdered his wife in a room of a leading hotel at Hamlet, N. C., on August 15th, last, and then of having set fire to the hotel in an effort to conceal the crime. Dr. Taylor has spent the past two days here and has had every opportunity to arrive at the real facts as regards the mental condition of the prisoner.

From the beginning the prisoner himself has stoutly maintained that his mind was never more clear. Every visitor to his cell has been met with a look of deepest suspicion. When questioned on any subject, his rule is to question in turn on some entirely different subject. While but few have been permitted to see him, his weakened mental apparatus is on the defensive always, matching itself against all comers. For this reason, Dr. Taylor had some difficulty in interviewing the prisoner. At his first call, the prisoner announced that he positively could not see any one now, that he had important business on hand, asking if the doctor would not be so kind as to come back tomorrow, when the prisoner would probably be at leisure. Counsel's assurance that the doctor's mission was a friendly one amounted to nothing. Returning a few hours later, however, the doctor was received with the greatest degree of cordiality, his former futile efforts not being mentioned by himself or the prisoner.

In this and subsequent interviews throughout the day, Dr. Taylor brought into play that fine degree of diplomacy with which 27 years of dealing with insane people, criminal and otherwise, has equipped him. Sixteen years' connection with the State hospital, and 12 years in the management of the noted Broad Oaks Sanitarium, had given him the mastery. His conclusion at the end of the first interview was the same as at the close of the last, that Nance has been for years what he must remain—hopeless.

A fact not hitherto brought out is that the father of Nance has been for many years confined to a hospital for the insane in Eastern Tennessee. That such has not sooner become known is due to the prisoner's having as long as possible refused to discuss his family affairs outside of the incidents that lead to the killing.

Mrs. Ellen Nance, of Washington, D. C., mother of the prisoner, arrived Saturday last, accompanied by another son, Charles T. Nance, to confer with the prisoner's counsel and to look after his interests generally. Mrs. Nance, a modest, retiring little woman, every line of whose face bespeaks culture, refinement and truth, says that the prisoner has not been a sane man since a severe attack of fever just as he reached manhood. Since that time she has always been uneasy about him, fearing for the worst always, except that her greatest fear has been that he would do himself instead of others harm.

Sveral facts of interest that have hitherto bee n kept back will be brought out when Nance is brought to trial. Among them, that for several years he has suffered from a terrible sexual malady, which has aided in rendering him a nervous wreck. Dr. Taylor, holds, too, that there are symptoms of an inherent degeneracy that will not down.

The victim of many delusions, Nance now thinks that his mother, brother and counsel are plotting against him. This latter developed into a most painful situation, when the mother, accompanied by counsel, called tchat with him for a while. From among his papers, he drew an affidavit that he had drawn, to the effect that "George S. Nance is now, and has been, of a sound mind." When the mother tried to turn to some other subject, or to reason with him, the prisoner exclaimed that she was like all the others against him. Only a quick slamming of the cell door in his face warded off a blow on the aged, helpless woman.

The prisoner still shows the inevitable batch of recommendations from men prominent in every walk of life that he had known or been connected with up to the time his affliction took definite form.

He no wexpresses absolutely no regret for the crime. Asked about his dead wife, his response is, "She is down at this next town," meaning Hamlet. "You can see her there."

The case may not be called for trial at the Fall term of criminal court. The chances are that it will hardly be taken up till the January term.

WILSON'S WEED BUSINESS.

Tobacco Keeps Coming in Large Quantities—Good Prices, Too.

(Special Star Correspondence.)

Wilson, N. C., Sept. 16.—Wilson tobacco men were surprised yesterday. They expected a let-up in the receipts of the leaf but the farmers do not seem to be willing to hold back in the least.

Monday is seldom a day of heavy receipts and yet about 350,000 pounds were sold on the local warehouse floors during the day and the prices remained steady at an average of about 17 cents. Some storm-damaged weed is holding the average price down although a considerable quantity of extra good leaf is being marketed. Today looks like another record-breaker. The floors were well filled early this morning and still the heavily laden wagons come, many of them from a considerable distance.

The local market opened August 19th—less than a month ago and the sales to date will not fall much short of 4,500,000 pounds. The total sales last season went to nearly 17,000,000 and the estimate now is that Wilson will handmmle over 21,000,000 pounds this season.

In the meantime cotton is coming in rapidly and it is hardly reasonable to many people the immense amount of money needed every day to handle the tobacco and cotton. With the marketing of the crops, local business men are beginning to feel a marked increase in all lines and consequently the general feeling is that of cheerfulness.

Reports from Farville, 12 miles east of here, tell of a fatal shooting affair in which a negro, named Foreman, was shot and instantly killed by another negro, Freeman Nobles. The shooting was the result of a quarrel which started over a game of cards. Foreman attacked Nobles with a buggy whip. Later the two met several miles from Farmville and Nobles shot and killed Foreman. Nobles is in jail.

BUFFALO HOTEL FIRE.

Two Floors Burst Into Flame in 15 Minutes—Fear Loss of Life.

Buffalo, N. Y., Sept. 16.—Fire broke out in the Brozel Hotel at Seneca and Wells streets shortly after midnight. Fifteen minutes after the alarm was sounded thhe two upper floors were in flames. It is believed there has been loss of life. All the guests, however, escaped.

Mother's Friend in Every Home

Comfort and Safety Assured Before the Arrival of the Stork.

The old saying—what is home without a mother—should add "Mother's Friend."

In thousands of American homes there is a bottle of this splendid and famous remedy that has aided many a woman through the trying ordeal, saved her from suffering and pain, kept her in health of mind and body in advance of baby's coming and had a most wonderful influence in developing a healthy, lovely disposition in the child.

There is no other remedy so truly a help to nature as Mother's Friend. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant those fibres and muscles which nature is expanding and soothes the inflammation of breast glands.

Mother's Friend is an external remedy, acts quickly and not only banishes all distress in advance, but assures a speedy and complete recovery for the mother. Thus she becomes a healthy woman with all her strength preserved to thoroughly enjoy the rearing of her child. Mother's Friend can be had at any drug store at $1.00 a bottle, and is really one of the greatest blessings ever discovered for expectant mothers. Write to Bradfield Regulator Co., 128 Lamar Bldg., Atlanta, Ga., for their free book. Write to-day. It is most instructive.

SERIOUS ENGLISH STRIKE.

Dublin and Liverpool in Throes of Labor Disturbance—Thousands Out.

London, Sept. 16.—The country is again threatened with a great railway strike and Liverpool, as before, will be the storm center.

The trouble began with the refusal of the Liverpool dockers to handle freight from Dublin, where the transport workers are on strike. Men to the number of 3,500 employed in the freight yards of the various railways went out this afternoon and were joined later by 4,000 at Birmingham.

That a complete tie-up is expected on the northwestern lines is indicated by a warning issued by the Cunard officials to homeward-bound Americans to hurry their baggage with them on boat and trains. At Dublin the deadlock continues. Various crowds gathered in the streets tonight, but there was only one riot which resulted in the smashing of the windows of street cars. More than 10,000 men are on strike in Dublin.

ENGAGED FIFTY YEARS AGO.

Romance of Childhood Sweethearts Finally Results Happily.

Kansas City, Mo., Sept. 16.—R. S. Hall, 70, a retired farmer of Breckenridge, Mo., and Mrs. L. H. Carr, 64, of Hartsville, Ind., who were engaged to wed 50 years ago, have obtained a marriage license here.

They were childhood sweethearts back in Indiana. Hall was a poor boy. When he was 16 he went bare-footed a-courting the girl of his choice. Later they were betrothed, but the girl's parents, who were wealthy, broke the engagement. Hall came West, married, and became owner of several rich Missouri farms. Then he heard of his former sweetheart's marriage to one of the rich men of Hartsville. Many years afterward he heard of this man's death. When Hall's wife died five years ago he received a letter of sympathy from Mrs. Carr, and subsequent corrspondence led to a meeting here.

Stearns' Electric Rat and Roach Paste

Exterminates Cockroaches quickly and very thoroughly.

Also Rats, Mice, Waterbugs, etc.

Sold by Druggists, 25c and 1.00

or sent direct, charges prepaid, on receipt of price.

When It Comes to Using ICE

The Independent Ice Company

without doubt offers in all respects the best Ice to be had in this market.

The water used is drawn from deep wells and is clear, pure and cold; it is distilled and double filtered, then reboiled making it absolutely pure.

It is then frozen at a very low temperature making Ice of the highest sanitary quality.

The best authorities on analytical chemistry prove our claim that no purer Ice than ours can be made.

Our Ice cuts clear and sure thus avoiding the waste in using so noticeable in other makes of Ice; therefore, careful and discriminating consumers will make no mistake in calling for our Ice on the grounds of purity, economy and general satisfaction.

Our delivery service is of the highest efficiency, combining certainty with celerity—early and late, and all the time on the job.

Our increasing sales prove in the most conclusive manner that we are serving the public with the real stuff.

Very truly yours for good, hot weather,

The Independent Ice Company

AUTOIL

Manufactured from best Pennsylvania Crude.

Darlington, S. C., July 9, 1913

Cape Fear Oil Co.,
Wilmington, N. C.

Gentlemen:

Referring to your invoice of Feb. 28th, Auto Oil. We have tried other oil here but that gave more universal satisfaction, and we would ask that you ship us a thirty gallon barrel of this same kind of oil for our auto and truck.

Yours truly,
The Coca Cola Bottling Co.

COTTON MODERATELY ACTIVE

Fluctuations Irregular Enough to Suggest Nervous and Unsettled Condition—Weather, Strikes and Tariff Play Part.

New York, Sept. 16.—The cotton market was not more than moderately active today and fluctuations were irregular enough to suggest rather a nervous and unsettled sentiment.

A feeling was expressed around the ring that advances above 13 cents brought out freer offerings from the South and caused a withdrawal of trade buying orders. On the other hand, there were many predictions of an increasing demand from spinners on decline, while further bullish crop reports were received from the territory affected by recent Southern storms, and the weekly report of the weather bureau was considered more bullish than otherwise. Early losses were more than recovered as a result of these conditions, but prices weakened again under realizing or scattered selling, with the close steady, net 5 points lower to 1 point higher.

The news from Washington left the trade uncertain as to the probable fate of the coton futures provisions of the tariff bill, but, on the whole, encouraged a hope that the present bill would be considerably modified, if it was not entirely eliminated, and this may have contributed to the midday advance.

Cables were about as due, although private advices from Liverpool reported increased hedge selling and a slack spot demand, partly as a result of a railroad strike. The local market opened steady, at an advance of 2 points to a decline of 2 points, and sold 7 to 9 points net lower on the early break, under liquidation and scattering pressure from local or Southern sources. Prospects for clearing weather in the Southwest probably helped the decline, but the market soon rallied, selling about 9 to 11 points net higher, after the publication of the weekly weather report.

Offerings increased around 13½ for December and the close was 10 to 12 points off from the best. Private wires reported a strike of longshoremen at Galveston, which had tied up the shipping at that point, and it was rumored during the afternoon that considerable cotton was coming from Atlantic States for delivery on October contract in New York, where the certificated stock is now less than 6,000 bales.

Spot cotton, steady. Middling uplands, 13.25; do. gulf, 13.50.

Futures closed steady.

DRY GOODS MARKET.

New York, Sept. 16.—Cotton goods markets rule firm, with demand less active. There is hesitation in men's wear selling and mills are slow to get in full operation. Cotton yarns rule very firm. Silk piece goods and ribbons are active.

THE LOT OF THE JUDGE

It is Not at All Times An Enviable—One—Case in Point.

(The Lumberton Robesonian)

A judge's lot is not all times an enviable one. Occasions arise when, while doing his stern duty, he almost wishes, maybe, he could change plices with the humblest spectator in his court. In New Hanover Superior Court the other day such a situation confronted Judge Rountree. A young wife, "sobbing as if her heart would break," The Star reporter wrote, "pleaded with him as only a woman can that her husband be given just one more chance. She pleaded and begged that the sentence of twelve months imposed on him be changed to a fine." And "the court could stand it no longer and asked that the young woman be taken from the room." It was an aggravated case and the judge knew his duty held him to the sentence imposed, despite the suffering that such a sentence would impose upon the innocent young wife and her children. But that was not the judge's fault. That the prisoner should have considered when he was boldly violating the law. All honor to the judge who can hold to the stern path of duty no matter how heavy his heart or how much inclined he may be to weep with the innocent victims of the crime of the one upon whom he is imposing sentence.

BACKBONE IN WHEAT MARKET

Big Export Sales Gave Strength—Closing Firm at Advance—Corn and Oats Show Gain—Other Features.

Chicago, Sept. 16.—Big export sales of Manitoba wheat at the seaboard put backbone today in the market here. Closing prices were firm, at ⅛@¼ to ½ over last night.

Corn finished ⅛@⅝ to ⅝c. up, and oats with a gain of ⅜ to ⅝@½. Provisions closed irregular, varying from 2½ lower to 5c. advance.

Cash grain:

Wheat—No. 2, red, 92½@93½; No. 2, hard, 88¾@89½; No. 2, Northern, 90@92; No. 2, Spring, 90@91.

Corn—No. 2, 73 74¼; No. 2, white, 74@74½; No. 2, yellow, 73¾@74½.

Oats—No. 2, white, 43¼@43½; standard, 42¾@43.

Futures ruled:

Wheat—September, 88¾; December, 90¾@90¾; May, 95¾@95¾.

Corn—September, 74¼; December, 71¾@71¾; May, 73@73¼.

Oats—September, 42¼; December, 44⅝; May, 47¼.

Pork—January, 19.62½; May, 19.80.

Lard—October, 11.05; January, 10.85; May, 10.97½@11.00.

Ribs—October, 10.92½; January, 10.42½; May, 10.55.

INVESTIGATING DEATH.

Important Developments Expected In Case of Miss Warfield.

Baltimore, Sept. 16.—Important developments are expected to result from the investigation which State Attorney E. O. Weant, of Carroll county, is making into the death of Miss Ella Warfield, a relative of former Governor Edwin Warfield. Miss Warfield, who was 60 years old, died in the middle of the night on her farm near Sykesville, about seven weeks ago.

It developed recently that an empty bottle, said to have contained poison, was found on her bed. The certificate issued by Dr. Daniel B. Sprecher gave acute indigestion as the cause of her death. Dr. Sprecher said he gave the certificate at the suggestion of Coroner Ora Miller, a cousin of the dead woman.

Mr. Wean today refused to disclose the contents of a note found beside the body. Those familiar with the inquiry believe this not throws considerable light on the death of Miss Warfield.

Cures Old Sores, Other Remedies Won't Cure

The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. Relieves pain and heals at the same time. 25c. 50c, $1.00.

STOCKS LACKED BREADTH

Few Leaders Take Marked Rise, But Fail to Arouse Enthusiasm—Reading Selected to Head List—New High Level.

New York, Sept. 16.—Operations on the long side in the stock market today met with indifferent success. The position of the market havin been strengthened by the realizing yesterday bulls sought to bring about a continuation of the movement forward. The pronounced rise of a few leaders failed to arouse enthusiasm and trading lacked the breadth of last week.

Reading apparently was selected as the leader in attempts to bid up the list. Copper shares, too, were in favor by reason of the further decrease in European supplies and the advancing price. Reading mounted more than 3 points to 169½, the highest figure of the year. Amalgamated also made new high record for the year by rising 2 points to 80½. Canadian Pacific advanced 5 points. Various other standard shares made gains of a point or more. Toward the close, selling pressure became greater. New Haven fell to a new low record, at 80¼.

Money rates held strong today. Foreign exchange rates again weakened, and there was much discussion of the possibility of gold imports.

Most leading bonds were inclined to sell off, but there were points of strength among the less active issues. Total sales, par value, $1,537,000. United States 2s, registered, were made at 98¾, compared with 97¾ yesterday, and 98½ last week.

Total sales were 465,500 shares, including Amalgamated Copper, 30,500; American Can, 42,000; American Tobacco, 300; C. and O., 1,100; Lehigh Valley, 3,700; L. and N., 400; N. and W., 1,600; Reading, 112,500; S. A. L., pfd., 200; Southern Pacific, 34,700; Southern Railway, 900; do. pfd., 200; Tennessee Copper, 800; Union Pacific, 29,800; United States Steel, 64,800; V.-C. C., 200.

INSTITUTE OF BANKING.

Several Hundred Delegates Have Already Arrived at Richmond.

Richmond, Va., Sept. 16.—Several hundred delegates from Eastern and Western cities arrived here tonight by special train to attend the 11th annual convention of the American Institute of Banking which opens tomorrow. More than 800 bankers and bank clerks are expected to attend. Secretary of State Bryan and Senator Theodore E. Burton, of Ohio, will address the convention on Thursday.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

Hart Schaffner & Marx Fall Style Book Is Out

YOU ought to be sure of seeing this book; and when you do, you ought to go through it carefully to know what the correct styles for men are to be. Here are some of the things in it that will interest every man:

1. A series of illustrations showing new Fall models in suits and overcoats for men and young men.

2. Some of the reasons why Hart Schaffner & Marx clothes are better for you than any made-to-measure clothes—for economy in time and money; and for more satisfaction.

3. A few words about the price of good clothes; what you ought to pay, and what you ought to get for it.

4. Some light on the way to get clothes that fit.

5. And a showing of the way men's styles in overcoats are adapted for women's wearing.

If you don't see a copy of this remarkable book soon, let us know and we'll see that you get one.

RAPID PROGRESS ON BOTH MEASURES

(Continued from Page One.)

per bale would be imposed for non-delivery.

Representatives of the cotton exchanges have presented objections to such a compromise and have asked that a small tax be levied—approximately the same as those as a revenue raiser during the Spanish war—and a government commission be created to study the taxation of cotton futures as an economic measure.

The cotton men who object to the compromise declare that the taxing of cotton, for which the government has created standard types, will cover only certain grades of white cotton, and will exclude not only certain lower grades of white cotton but also so-called tinged and stained cotton which normally constitutes about 20 per cent. of the crop, and which they claim in years of storm is a much greater proportion.

The effect of the compromise, they say, would be to lift a tax described by them as "destructive" and "prohibitive" from only a portion of the crop.

TOBACCO IN MOUNTAINS.

Yadkin County Farmers Have Raised a Large Crop of Weed.

Yadkinville, N. C., Sept. 16.—The tobacco crop in Yadkin this year is something enormous. From all indications at present the crop is the largest that this county has had in many years. The farmers were not only encouraged to put out larger crops by the good prices last year, but the season was such in the Spring that plants were available for all who wanted to put out the weed. It seems too that the grade of the tobacco this year will far exceed that of the past few years, this, it is said, is due to the fact that no very hard rains have come during the growing season to wash the "gum" from the leaf, and consequently the leaf will be heavier as well as of a better grade.

The season for cutting tobacco is now at its height, and the cutting and curing will occupy several days yet. As another evidence of a larger crop than usual the flue shop of J. H. Mackie & Sons at this place has turned out twice the amount of flues as in any year since the firm began business here. The working force has been doubled and working overtime. Over 50,000 pounds of flue iron have been made into flues and sold at five cents a pound, which means that Yadkin farmers have invested more than $2,500 in flues this year.

The farmers are still more encouraged at the rate the prices are starting off this year, as they are even higher than last year.

WAR ON THE "VAGS."

Newbern's Mayor Determined to Put Them to Work—Good Results.

(Special Star Correspondence.)

Newbern, N. C., Sept. 16.—Albert H. Bangert, Newbern's new mayor, who has become the terror of all lawbreakers, and who has made a number of improvements in the moral condition of the city since being inducted into office, is hot on the trail of the vagrants who prowl around the city by day and night, living by their wits alone.

Mayor Bangert has given instructions to the chief of police and his officers to bring before him every white man and negro who makes a habit of loafing around town and who has no visible means of support. "There is plenty of work that these unemployed men can get to do," says Mayor Bangert. There are a number of saw mills in this part of the State and even in this city who are very anxious to secure men to perform manual labor and are more than willing to pay good prices for any work which they can get done. In addition to this the farmers are calling for hundreds of men to assist them in picking cotton. One very noticeable effect of the Mayor's action against the vagrants is that the sale of "blind tiger" whiskey is greatly decreasing, as is shown by the court records and this traffic bids fair to become a lost art in this city.

TORPEDO BOAT DESTROYERS.

Secretary Daniels Awards Contract for Six Speedy Craft.

Washington, Sept. 16.—Secretary Daniels today made conditional award of the contracts for six new torpedo boat destroyers, Nos. 57 to 62, as follows:

Two vessels to the New York Shipbuilding Company, at $825,000 each; two to William Cramp & Sons, Ship & Engine Building Company, Philadelphia, at $881,000 each; one to the Fore River Shipbuilding Corporation, Quincy, Mass., at $861,000, and one to the Bath, Me., Iron Works, at $884,000.

These vessels are to be the largest of their class yet designed. They will have the same high sustained sea speed that has proved so successful in previous boats of the same type, but they mark a decided advance in radius of action at high speed. Increased space has been assigned for the living accommodations of both crew and officers.

SIX SHOTS IN 57 SECONDS.

Dreadnaught Arkansas Breaks World Record at Target Practice.

New York, Sept. 16.—The dreadnought Arkansas, flagship of the first division of the Atlantic fleet, has achieved the triumph of breaking the world's record in elementary target practice. Her No. 4 turret, equipped with two 12-inch guns, fired six shots in 57 seconds in recent practice work off the Virginia Capes, making six hits, a score in phenomenally quick firing time. The Arkansas is an eager rival for the honors in record practice now held by the Idaho, formerly by the Delaware.

The record-breaking gun crew comprises 81 men, the officer in command of the turret is Junior Lieut. J. H. Ingram, and its expert gun pointers are D. J. O'Reilly, boatswins mate first class, and Seaman J. L. Ebbett. The second team comprises Coxswain E. Pautot and Seaman J. F. Hackett. C. Miller is chief turret captain.

THE HEINZ LOANS.

Given 60 Days to Redeem Securities Valued at [illegible] Million.

Boston, Mass., Sept. 16.—Under a Supreme Court decision rendered today, F. Augustus Heinz, of Butte, Mont., is given 60 days in which to redeem or file an intention to redeem securities valued at between $500,000 and $600,000, which he pledged five years ago with A. D. F. Adams for loans amounting to $300,000. Adams is now serving a prison sentence for re-hypothecating the stock security for the Heinz loans.

The court finds that with the exception of W. A. Gove and Charles P. Gove, of Boston, 15 defendants who loaned Adams money on the Heinz stock, knew that the securities pledged by Adams were Heinz's property. The case has been in the courts for nearly four years.

HUERTA MESSAGE IS PACIFICATORY

(Concluded from Page One.)

destinies, have not vouchsafed a reply to the letter.

"The executive is ignorant of the causes which may have prompted this conduct and it certainly may be entirely worthy of respect. He abstains from endeavoring to learn, and contents himself with putting the result before your honorable body.

Presence of Warships.

"There have been sent to our ports various foreign war vessels with the object, it is said, of extending protection, if that should be necessary, to the lives and interests of the citizens or subjects of the powers in question, by reason of the state of insecurity, it is presumed, growing out of the revolution. In view of this departure in foreign relations, I entered into correspondence with certain foreign diplomats, calling attention to the action of their respective governments and upon receiving due explanations, dictated orders toward the fulfillment of the law in such case.

"Since the law prohibited war ships from remaining for more than a month in territorial waters, the Senate authorized the said ships to remain, but with the understanding that those remaining should not entail an attack on the dignity and sovereignty of Mexico. Such authorization limited them to a period of six months dating from April 25th, last, and it was not thought advisable to renew this authorization upon its approaching expiration."

The Approaching Elections.

On the subject of the approaching elections, the President said he had promulgated the law enacted by Congress complementary to the electoral law under which the government will hold elections the coming October.

He declared that the government would continue to make efforts toward the pacification of the country within a period relatively short. In this respect he could inform Congress that the situation already was dominated by the government in a majority of States, only Sonora and Durango being at present totally beyond authority.

He called attention to the fact that within the period treated by the message the most salient accomplishments of the revolutionary movement had been the taking of Zacatacas, which had been recovered later by the forces of the government; the taking of Durango, which was still in the hands of the rebels, and attacks on the port of Guaymas and the City of Torreon, which were repulsed by the Federal troops. The filibuster movement in the northern part of lower California had quickly been suppressed.

Huerta Given Rousing Ovation.

Mexico City, Sept. 16.—In spite of the rumors which dealt impartially with attacks upon Americans, an army uprising and the assassination of the President, Independence Day came and went with nothing to mar the holiday spirit.

Politically the great event was the re-opening of Congress and the reading of the President's message, but without doubt Gen. Huerta was moved less by that than by the spectacle of thousands of students, captains and soldiers doing him honor as he stood on the balcony of the National Palace reviewing the great parade.

More than 4,000 volunteers and students ranging in age from 12 upward, had their taste of military discomfort, standing for hours in drizzling rain and plodding through muddy streets. They bore the hardships manfully.

It is estimated that close to 10,000 marchers passed in review. Along the line of march balconies, house tops and pavements were crowded; the air was filled with flowers and confetti showered upon those who marched.

President Huerta and his aides riding through the streets after the conclusion of the early ceremonies at Chapultepec, were greeted with wild applause. The President's greatest triumph appeared to be at his reception at the joint session of Deputies and Senators when he entered to read his message.

The city tonight was ablaze with incandescent lights. Until midnight the thoroughfares presented the appearance of New Year's Eve in the big cities of the United States. Crowds filled the Zocalo in front of the National Palace, while crowds wandered noisily about the streets, tooting horns and making the most of the inspiring holiday.

Bryan and Wilson in Quandary.

Washington, Sept. 16.—President Wilson and Secretary Bryan today received an abstract of Provisional President Huerta's message to the Mexican Congress, but no comment on it was forthcoming from either the White House or the State Department.

Administration officials were in a quandary today over whether to send the Huerta government a message of congratulation on the celebration of independence day throughout the Mexican republic. There was hesitancy about addressing a message of that character to a government which had not been formally recognized.

So far as known tonight no message was sent, but it is believed that Charge O'Shaughnessy will be instructed to convey to the authorities in Mexico City the good wishes of the United States in this connection.

Revoke Arms Decree.

Washington, Sept. 16.—The Constitutionalists in Sonora have revoked the decree which forbade Americans and other foreigners to arm themselves for self-defense. Consul Sympich today reported from Nogales that the consul at Hermosillo had notified him of a new Constitutional decree under which all foreigners as well as natives who convince the authorities that they need arms will be permitted to retain them after proper registration.

PRIMARY FOR JUDGSHIPS.

Pennsylvania Voters Yesterday Balloted on Judges.

Philadelphia, Sept. 16.—Returns from the first State-wide primary election in Pennsylvania for the nomination of four candidates for the Superior Court showed that James Alcorn, of Philadelphia; Oliver B. Dickinson, Delaware county; Webster B. Grim, Bucks county; Judge John J. Henderson, Crawford county, and John W. Keppart, Cambria county, were leading among the 15 candidates for the nomination. All the candidates are named on a non-partisan ballot and two of the four nominees will be elected in November.

Detroit, Mich., Sept. 16.—A muddy track today made necessary the postponement of half of the programme, including the $5,000 purse for 2:12 pacers, and only two events were completed at the Grand Circuit race meet. The 2:14 trot went to Peter Billiken in four heats, while Robert Milton accepted the 2:07 trot with ease.

SCHMIDT IS SANE OFFICIALS BELIEVE

(Continued from Page One.)

court they had no evidence on which she could be held.

Dr. Muret, the search of his office disclosed, had been studying law through a Chicago correspondence school. Many law books and forms of study from the school were found.

William Flynn, chief of the Secret Service, today announced that he had temporarily taken charge of the government's end of the case, and would work with the New York police in tracing the operations of Schmidt as a counterfeiter, and also the connection Muret might have had with the fake money plant.

Inspector Faurot, head of the detective bureau, tonight reiterated his belief that Muret and Schmidt are relatives, if not brothers. Dr. Muret told the inspector the resemblance was merely a coincidence.

Alphonse B. Koeble, Schmidt's attorney, today visited the prisoner, and later declared he was more than ever convinced of the insanity of his client.

"He declared that he is sane," Keble said in explanation of his belief. "He says one of his personalities is Schmidt, the priest, that another is Dr. Molcre, the medical man, and a third the counterfeiter. He freely admitted his intention to make money, but says the money was not counterfeit, but real money made at the command of God."

To Father Evers Schmidt is quoted as saying that "God gave me the plates," and in reply to a question by the chaplain as to why he had become a counterfeiter, the priest replied:

"There are so many poor people in the world. There are so many poor who are sick and who are in dire need, it was going to help them—was going to better their condition. Half of the money I was going to devote to bettering the condition of the people of the United States, the other half was to be devoted to bettering the condition of the poor of Germany."

These explanations of his acts, the detectives contend, are merely in line with his pre-arranged plans to appear insane, while at the same time telling his attorney that he is sane.

EPISCOPALIANS INTERESTED

To Discuss How to Help the Alien Population of the Country

New York, Sept. 16.—How to accomplish more and better work with the foreign born population of the United States will be made the subject of careful consideration by the general convention of the Protestant Episcopal church which will be held in New York next month. The convention begins on October 8th, and will be in session for about three weeks.

The duty of the church toward this portion of the population was brought to the attention of the general convention at its last session which was held in Cincinnati in 1910. The matter came up in the house of deputies in the form of a resolution introduced by the Rev. John E. Sulger, of Terre Haute, Ind., who was one of the representatives of the diocese of Indianapolis.

The resolution called for a commission which was to report at the next session of the convention, and it was adopted by a large majority. It provided that the commission should consist of five bishops, five clergymen and five laymen. The house of bishops concurred in the resolution, and Bishop Tuttle, of Missouri, the presiding bishop, named the following bishops: the Rev. Dr. Ethelbert Talbot, bishop of Bethlehem; the Rt. Rev. Dr. James Dow Morrison, bishop of Duluth; the Rt. Rev. David H. Greer, bishop of New York; and the Rt. Rev. Dr. Edward Melville Parker, bishop, coadjutor of New Hampshire.

The commissioners from the house of deputies were as follows:

The Rev. John E. Sulger, of Terre Haute, Ind., who introduced the resolution; the Rev. Dr. Ernest M. Stires, of New York; the Rev. Theodore Sedgwick, of St. Paul, Minn; the Rev. Charles L. Mallory, of Milwaukee; the Rev. Gardiner L. Tucker, of Houma, La.; John H. Stiness, of Providence; D. B. Lyman, of La Grange, Ill., Roland S. Morris, of Philadelphia; A. B. Gardiner, of Brooklyn, and William V. Kellem, of Cohasset, Mass., It will be noted that each one of the members of this commission comes from a diocese where there is a considerable foreign-born element and where the church has a grave problem on hand in connection there-with. The commissioners have given close attention to the matter entrusted to them, and their report will be a comprehensive one, dealing with all phases of the work and making a number of recommendations looking toward the improvement of methods now in vogue.

ARMOR PLATE TRUST.

Secretary Daniels Would Circumvent Bidders for Battleship.

Washington, Sept. 16.—With more than half a million dollars already saved to the government through competition on contracts for material for battleship No. 39, Secretary Daniels tonight announced he had notified the Midvale, Carnegie and Bthlehem Steel companies that he would not accept either of their recently submitted identical bids for heavy armor plate for this vessel unless they could show him cost of production figures to justify their acceptance.

"I feel sure that Congress will not fail to back up the department in whatever steps seem best to obtain armor at a just price," the secretary said.

The three companies named have the only plants in this country capable of turning out the heaviest grade of armor plate. Mr. Daniels' solution of the problem is the establishment of a government armor factory. He had been urging this on Congress ever since he became head of the Navy Department and found that the practice had been to receive identical bids from the three companies and divide the contracts between them.

STORMS IN FRANCE.

Merchandise Washed From Quays and Persons Drowned.

Paris, Sept. 16.—Thunder storms of exceptional violence have crept over France doing great damage. At Marseilles the streets were transformed into torrents; hundreds of cellars were flooded and quantities of merchandise on the quays were ruined or washed into the sea. All traffic in the city was suspended for a time. A boat containing a fishing party of six was capsized in the harbor and five persons were drowned. At St. Agreve and other places houses were demolished causing some loss of life.

Will Relieve Nervous Depression and Low Spirits.

The Old Standard general strengthening tonic, GROVE'S TASTELESS chill Tonic, arouses the liver, drives out Malaria and builds up the system. A sure Appetizer and aid to digestion. 50c.

(Advertisement.)

JEROME IS OUTWITTED, THAW SCORES VICTORY

(Concluded from Page One.)

Thaw, had reserved a suite of rooms at a local hotel for use tomorrow and succeeding days, but on account of the postponement to September 23rd of the extradition hearing before Govenror Felker, it was understood tonight that she would not arrive until next week. She will be accompanied by her daughter, Mrs. George L. Carnegie, and the latter's husband.

Governor Felker was very willing to change the date of the hearing as he is busy at present trying cases as an attorney in the courts of Strafford county. His desk here continued to pile up with correspondence on the Thaw case, largely from sympathizers with Stanford White's slayer.

NEW YORK PRIMARY.

First Under Law Which Caused the Breach Between Sulzer and Tammany

New York, Sept. 16. — Under the Lauvelt law, which caused tht open break between Governor Sulzer and Tammany, and was enacted over the veto of the Governor, voters of six political parties held their vrst direct primary today, nominating candidates for municipal, borough and county tickets and assemblymen. The polls closed at 9 o'clock tonight. The count proceeded slowly, and it was not anticipated that any official figures would be available before tomorrow.

Just for Convenience

Entirely aside from the many other advantages of a personal Checking Account at the Bank, the convenience of it is no small consideration. The ability to make purchases and pay bills after banking hours without the necessity of always having a pocketful of money is worth a great deal. With a Check Book in your pocket, you are taking no risks of losing money and yet you always have all of your money on hand and ready for use. One is as liable to need money before ten in the morning or after three as between those hours. The Personal Check Book settles the matter.

Save in Safety!

Don't put your Savings in the top bureau drawer nor in a hole in the mattress or an old sock.

Such places are not safe; they offer no protection from either fire or thieves.

But, put your hard earned money in this strong Savings Bank, where it will be safe and ready for your use when needed.

We pay 4 per cent compound interest and keep your savings safe.
